ELISHA STONE,
Constable of Brookline.

In compliance with the foregoing warrant, the citizens of the town of Brookline assembled at the Town Hall in said town, on Thursday, December the ninth, eighteen hundred and fifty-eight, and were called to order at twenty minutes of seven o'clock in the evening, by the Town Clerk, who read the warrant and return thereon, and presided during the choice of a Moderator.

The Second Article in the warrant was then taken up, in relation to widening Cypress street between Walnut and Boylston streets, and the Selectmen presented the following report of their doings thereon, viz. :

In conformity with said notice, the Selectmen met at their office in the Town Hall, on Wednesday, the 20th day of October, 1858, at 9 o'clock in the forenoon, and no person appearing against the widening of said street between Walnut and Boylston streets, the Selectmen proceeded to widen and lay out that portion of said street as follows, to wit:

Commencing at a monument on the westerly line of said street at its junction with Walnut street, thence running northerly by the present line of the street one hundred eighty-six and two-tenths feet to a monument; thence again northerly one hundred fifty-one six-tenths feet to a monument standing five feet westerly from the present line of the street; then again northerly one hundred fifty-one six-tenths feet to a monument on the present line of the street; then again northerly ninety-eight feet to a monument on the northwest corner of said street at its junction with Boylston street, completing the westerly line of that portion of Cypress street; also taking a right of way to lay a drain on the southerly side of Boylston street from the above-described westerly line of Cypress street and running westerly by the line of Boylston street to the brook, said way being six feet wide and about one hundred and fifteen feet long, for the purpose of laying a drain or gutter to pass off the water from the above-mentioned portion of Cypress street and a portion of Walnut street. The line on the easterly side of said street is as follows: Commencing at a monument on Walnut street, thence running northwesterly by a curve of twelve feet radius fourteen and three-tenths feet to a monument; thence again northwesterly thirty-seven and six-tenths feet to a monument; then northerly by a curve of thirty feet radius twenty-six two-tenths feet to a monument standing forty feet from the previously described westerly line of said street; then again northerly by a line parallel with and forty feet from the previously described westerly line of the street four hundred seventy-one nine-tenths feet to Boylston street, completing the easterly line of said street according to and agreeable with a survey and plan of the same drawn by Amos R. The Selectmen have taken land for the purpose of widening and making said way as follows, viz.: Land of John A. Bird, seven hundred and forty-three square feet; land of the heirs of Caleb Clark, six thousand three hundred and forty-three square feet.

The Selectmen have also considered the subject of awarding damages for land taken for the above purpose, and after careful deliberation, considering the advantages and benefits the widening and making said way will be to the abutters, they make the following award: To John A. Bird, the sum of fifty dollars, in full for all damages he may sustain by the widening and making Cypress street opposite his estate; to the heirs of Caleb Clark, three hundred and seventy dollars, in full for all damages they may sustain by the widening and making of Cypress street opposite their estate.

The Selectmen will allow the owners of the land over which Cypress street is widened fifteen days from the fourteenth day of December, current, to remove all walls, fences and trees therefrom, at the expiration of which time the town will enter upon and make and grade said way.

W. A. HUMPHREY,
THOMAS PARSONS,

BROOKLINE, February 7th, 1859.

Selectmen of Brookline.

Voted, To accept and allow the widening and laying out of Cypress street between Washington and Boylston streets.

Voted, That the thanks of the town be presented to those persons living on the line of Cypress street for their liberality in waving all claims for damages on the line where said street is proposed to be widened.

Seventh Article taken up :

To hear and act upon the order of notice from the County Commissioners on the petition of E. A. Wild and others.

Voted, That it is inexpedient for the town to take any action in the matter.

The Eighth Article was then taken up :

To see what action the town will take upon the subject of the support of the Mill Dam roads after they shall be given up to the Commonwealth.

On motion of William Aspinwall, it was—

Voted, That the Selectmen be and hereby are directed to apply to the General Court to make some provisions by law for the maintenance of the Mill Dam and the roads connected therewith belonging to the Boston and Roxbury Mill Corporation, after said corporation shall cease to take tolls thereon, and for this purpose to make a fund from the proceeds of the sales in the Back Bay belonging to the Commonwealth ; and the Selectmen are further recommended to communicate with the authorities of Roxbury and Brighton with the view of enlisting their support of such an application.

Ninth Article :

To see if the town will lay out Park street, or any part thereof, as a public way.

Voted, To refer the subject of the article to the Selectmen.

The Fourth Article was then taken from the table, and the Selectmen presented the following report for the consideration of the meeting, it having been previously laid on the table :

REPORT OF THE SELECTMEN ON THE DRAINAGE OF WALNUT AND BOYLSTON STREETS AT THEIR JUNCTION WITH WASHINGTON STREET.

The committee appointed at the meeting of the citizens of the town of Brookline, held on the ninth day of December last, A. D. 1858, to whom was referred the Fifth Article in the warrant calling said meeting, to wit : "To see what action the town will take in relation to draining the water from Walnut and Boylston streets at the junction of Washington street," and report thereon at a future meeting. Your committee have attended to that duty, and would report as follows, to wit :

We find that the water coming down Walnut and Boylston streets passes over a small point of land belonging to Samuel A. Walker lying at the junction of Boylston and Washington streets, and thence passes through a culvert in the railroad bridge made by the Charles River Railroad Company, thence along a paved gutter to the brook, which is the natural passageway of the water from that point, and to which we con-

sider the town has a perfect legal right; but we do not consider that the town has any right to drain over the point of land at the junction of the streets.

We would therefore recommend the town to purchase a small piece of land at that point for the purpose of draining and widening the street, and we would recommend the following vote:

Voted, That the town raise and appropriate the sum of two hundred dollars for the above purpose.

JAMES BARTLETT, *Chairman Selectmen.*

Voted, To accept the foregoing report.

D. 1858, to wit: "To see what action the town will take in relation to draining Washington street between the Town Hall and School street," would report that they have attended to that matter, and would lay before the town the various ways by which it can be done, and the price annexed, as follows, to wit:

1st. By an underground drain, taking the water to the School street drain, for the sum of \$533.50.

2d. By an underground drain, taking the water to the cesspool on Harvard street, for the sum of \$797.50.

3d. By grading Washington street as per the red line on the profile of said street as made for the town by the Messrs. Whitwell and Hanks, for the sum of \$1,700.

Should the town decide to alter the wall in front of the Town Hall, as shown on the plan, and grade and fence the Town House lot, the cost thereof will be about \$2,600.

The above modes we submit to the town for their consideration, and to adopt such plans as they think best.

Respectfully submitted,

BROOKLINE, March 26th, 1859.

JAMES BARTLETT, *Chairman.*

ADJOURNED ANNUAL MEETING, APRIL 5, 1859.

Pursuant to adjournment, the citizens of the town of Brookline assembled in the Town Hall in said town, on Tuesday evening, the fifth day of April, in the year of our Lord eighteen hundred and fifty-nine, and were called to

order at fifteen minutes of eight o'clock, the Moderator, William I. Bowditch, in the chair.

The first business in order being the filling of any vacancies in the officers chosen, by reason of their declining, was then taken up, and the following action was taken by the meeting, to wit:

Voted, To reconsider the vote whereby the town voted to have eight Constables for the ensuing year, and that the seven persons already chosen and qualified for that office be the number for the year ensuing.

Voted, To reconsider the vote whereby the town voted to have four Field Drivers for the ensuing year, and that three, the number already chosen and qualified, be the number for the ensuing year.

Voted, To reconsider the vote whereby the town voted to have two Sealers of Leather for the ensuing year, and that the one already chosen and qualified be the number for the present year.

Eben W. Reed was chosen Pound Keeper.

Samuel Clark was chosen Cemetery Committee.

Philip S. Allen, John Gibbs, and Thomas S. Pettengill, were chosen Fire Wards.

Charles Pope was chosen Truant Justice.

F. W. Prescott, for the majority of the committee to whom was referred the Tenth Article in the warrant, presented the following report, viz.:

REPORT.

The committee to whom was referred the subject of providing additional accommodations for the Pierce Primary school would respectfully report. It is clear, from the School Committee's report, that such additional accommodation is now very desirable, and will become indispensable after the usual addition of schools to the Pierce Grammar and Primary schools at the term following the annual examination in July.

The committee, for various reasons, would not recommend the erection of another school-house at present, and they incline to the opinion that the addition of another story to the Pierce school-house is practicable and would afford the requisite accommodations for the present and probably for several years. It was impossible, in the short time allowed the committee, to agree upon any plan in detail of the proposed addition to said building, or to obtain an accurate estimate of the cost thereof; but

they think, from such inquiries as they have been able to make, that the whole expense will not exceed fifty-two hundred dollars. We would therefore recommend that the sum of ———— dollars be appropriated for the purpose of building an additional story to the Pierce school-house; that a building committee of five be appointed to take charge of the work, and that the building be done, as far as possible, during the midsummer vacation.

F. W. PRESCOTT.

SAMUEL PHILBRICK.

GEO. F. HOMER.

BROOKLINE, April 5th, 1859.

Voted, To accept the foregoing report.

Charles Follen submitted the following minority report from the same committee, to wit :

REPORT.

Admitting, in accordance with the opinion of the School Committee, that it may eventually be necessary to build another school-house, I believe that at present and for several years to come the want may be sufficiently met in a less expensive way. I recommend that the present Grammar school building be enlarged by the addition of a roof story to replace the present roof. I consider it inexpedient to attempt to raise the present roof, because, though very thoroughly built, it is, from its design, from its great weight, and from the difficulty of getting a sufficient number of safe points of bearing, peculiarly difficult to raise, and, further, because nearly the same amount and quality of room may be got at a far less cost, the difference being according to estimates made at our request from thirteen to fifteen hundred dollars (the cost of story, with raised roof, being five thousand two hundred and sixty-five dollars), while the external appearance of the building will be much improved.

CHARLES FOLLEN.

Mr. Follen also offered the following votes in connection with his report, viz. :

Voted, That it is expedient to add to the Grammar school-house a roof story rather than either to raise the present roof or to build a new school-house, as being least expensive, affording good and ample accommodations, and improving the appearance of the building.

Voted, That the sum of four thousand dollars be appropriated to meet the expense of building.

Voted, That ———— be a committee to superintend the work.

Voted, To lay the work on the table.

On motion of W. A. Wellman—

Voted, That the sum of five thousand two hundred dollars be raised and appropriated for the purpose of building an additional story to the Pierce school-house.

Voted, To reconsider the foregoing vote.

Voted, To reconsider the vote whereby the Thirteenth Article in the warrant was indefinitely postponed.

Voted, To refer the Tenth Article to a new committee.

Voted, To refer the Tenth Article to a new committee of five persons, to take the matter into consideration and report thereon at a future meeting.

Voted, That said committee be appointed by the Moderator.

The Moderator accordingly appointed the following gentlemen, viz. : Messrs. William Dwight, John N. Turner, Ginery Twitchell, Charles Follen and F. W. Prescott.

After some discussion by the meeting in reference to submitting the further consideration of the Thirteenth Article to the above committee, it was—

Voted, To lay the Thirteenth Article upon the table.

The Fourteenth Article was then taken up, viz. :

To see if the town will take any action in relation to altering the grade of the street and the wall in front of the Town Hall according to plans of the same made by Amos R. Binney.

Upon which James Bartlett, Chairman of the Selectmen, presented the following report, viz. :

REPORT.

The Selectmen, to whom was referred the Fourteenth Article in the warrant calling the annual town meeting held March 28th, 1859, to wit : “To see if the town will take any action in relation to altering the grade of the street and changing the wall in front of the Town Hall, according to plans of the same made by Amos R. Binney.” The Selectmen have attended to the above-mentioned business, and would report as follows : After carefully considering the subject and examining the ground, we find that the most effectual way of draining Washington street south of School street would be by lowering the grade opposite the Hall estate about eighteen inches, to raise the grade in front of the Leeds estate about thirty-six inches, and then again by lowering the grade opposite

Holden street about twenty-four inches, thus carrying the water over the surface of the street to the brook at the railroad bridge, according to a plan and profile of the same as made by Amos R. Binney. We have estimated the expense of grading and filling said street, including the damages to the estates of the abutters, and we think it will not exceed the sum of twenty-one hundred dollars. We therefore recommend to the town to adopt said plan of drainage. We find that in order to drain the water as aforesaid into the brook it will be necessary after crossing the railroad track to pass over ground claimed by Samuel A. Walker, as also in taking the water from Boylston and Walnut streets, and we would recommend the town to take such steps as are necessary to secure the drainage as above mentioned into the brook. We would also recommend to the town to finish the grading of the Town House lot, to fence the same, and to alter the wall in front according to plans of the same made by Amos R. Binney; the whole expense not to exceed the sum of thirteen hundred dollars. We would state that the subject of damage to the estates of the abutters on the line of the street where the grade is altered cannot be definitely settled before such grading is finished unless the town is pleased to give whatever persons owning such estates see fit to ask, and we think that often persons ask to be paid damages when their estates are really benefited by the improvement.

We would offer the following votes:

Voted, That the sum of twenty-one hundred dollars be raised and appropriated for the purpose of grading and draining Washington street.

Voted, That the sum of thirteen hundred dollars be raised and appropriated for the purpose of grading and fencing the Town House lot and altering the wall in front of the same.

All of which is respectfully submitted.

JAMES BARTLETT,
MARSHALL STEARNS,
HOWARD S. WILLIAMS,

BROOKLINE, April 5, 1859.

Selectmen.

Voted, To accept and allow the foregoing report.

The Selectmen, to whom was referred the Fifteenth Article in the warrant, viz. :

To see what action the town will take in relation to purchasing the whole or a part of the lot of land formerly occupied by the Baptist society,"

—presented the following report, to wit :

REPORT.

The Selectmen, to whom was referred the Fifteenth Article in the warrant calling the annual meeting held March the 28th, 1859, to wit :
“ To see if the town will take any action in relation to purchasing the whole or a part of the lot of land formerly occupied by the Baptist

society, at the junction of Washington and Harvard streets." The Selectmen have attended to that matter, and would report as follows, viz. :

That in their opinion the streets need to be widened at that point, so as to accommodate the fast increasing travel on those streets. We have therefore caused plans to be made showing how the object could be best accomplished, and we would recommend to the town to purchase so much of said estate as is contained in the point of land lying in front of the meeting-house, provided it can be purchased for the sum of fourteen hundred dollars.

MARSHALL STEARNS
HOWARD S. WILLIAMS.

Voted, To accept the foregoing report.

Voted, That the whole subject of the Fifteenth Article be referred to the committee on the Tenth Article, to report thereon at a future meeting.

Voted, That when this meeting adjourn it be to two weeks from this evening, at seven and one-half of the clock.

Motion to adjourn was made, and lost.

Voted, To add one thousand dollars (\$1,000) to the appropriation for highways.

Voted, To adjourn.

Attest : B. F. BAKER,
Town Clerk.

ADJOURNED ANNUAL MEETING, APRIL 19, 1859.

Pursuant to adjournment, the inhabitants of the town of Brookline met at the Town Hall in said town, on Monday evening, April the nineteenth, eighteen hundred and fifty-nine, the Moderator, William I. Bowditch, in the chair.

Voted, To reconsider the vote whereby the town voted to have four Fire Wards.

Voted, That two Fire Wards be the number for the ensuing year.

Charles Pope was chosen Truant Justice, in place of William Aspinwall, who declined serving.

Voted, That the various appropriations made by the town, including those for the purpose of making and repairing highways and townways, be assessed, after deducting the amount now in the treasury and the probable receipts for the ensuing year, amounting to the sum of — dollars, upon the polls and estates, real and personal, of the inhabitants, resident and non-resident, of the town, and collected as the town charges are usually charged and collected.

On motion of Edward Atkinson,—

Voted, That the sum of (\$750) seven hundred and fifty dollars be added to the appropriation for highways, and that the Surveyors of Highways be recommended to expend said sum, or as much thereof as may be needed, in repairing Boylston street, in making gutters and sidewalks at such points upon said street as they may think best.

On motion of Thomas Parsons, the meeting passed the following two votes, to wit :

Voted, That the Selectmen be instructed to communicate with the Mayor and Aldermen of the city of Boston, requesting of said board information in regard to what authority exists by virtue of which said city takes the right to enter upon and dig up streets in the town of Brookline for the purpose of laying a new main of water-pipes, the Act (Chapter 222) giving said city such power, under restrictions, not yet having been accepted, agreeable to Section 5th of said Act.

Voted, If the city of Boston has not, or refuses to accept said Act within four days after such request from the Selectmen, said Selectmen shall oppose all doings of said city in said town which, in their opinion, or the opinion of counsel, are trespassers, in any manner they may deem expedient.

Mr. Parsons then moved that the sum of eight thousand dollars be raised and appropriated for lowering the grade of Bradley's hill, making and repairing Boylston street, according to a plan of the same made by A. R. Binney.

Upon which, on motion of William Aspinwall, it was—

Voted, That the subject be referred to the Selectmen, to report thereon at the next town meeting.

The committee to whom was referred the Tenth and Fifteenth articles in the warrant, in relation to building a new school-house and purchasing land of the Baptist Society, made the following report, to wit :

REPORT.

The committee to which was referred the whole subject of Article Tenth of the warrant, "to see if the town will make any appropriation for building a school-house to accommodate the Pierce primary school," and also the Fifteenth Article, "to see if the town will take any action in relation to purchasing the whole or any part of the lot of land formerly occupied by the Baptist society at the junction of Washington and Harvard streets," respectfully report: In regard to the subject-matter of the Tenth Article, the committee remark that the number of scholars for whom the town must provide school room now in addition to that already provided is fifty, and this additional room must be provided in the early part of the present year. Unless compelled by motives of economy, no one who examines the subject would advise the town to provide the school room now required in connection with existing school-houses, for except on economical grounds it is not desirable that our school-houses should be more than two stories high, because the danger incurred by the children in case of fire or panic is greater the more the houses are crowded,

and because the occupants of three stories in the same building interfere more with each other than the occupants of two stories. Further, it is not desirable, except on economical grounds, such as saving the purchase of land, that our present school-houses should be disfigured by additions built on them not contemplated when they were planned. Moreover, the committee are of the opinion that the school room now required can be provided as economically in a separate building as by raising the roof of one of the present school houses or by building an addition to one of them.

The committee also find that the town owns land already graded and land soon to be graded, to wit: The Gibbs lot, so called, in rear of the Town Hall, the Fay lot and the Horton lot, so called, amply sufficient and entirely suitable for all the school-houses it will be called upon to erect within the limits of this district for years to come. There is no reason therefore, in the opinion of the committee, either on the score of economy in building or saving in the purchase of land, which should induce the town to provide the school room now required in connection with the existing school-houses.

It is necessary, before the committee submit the plan it would recommend the town to adopt, to state that, according to the best judgment the committee can form, the town will be called upon to provide room in this district during the present year and the next year for one hundred scholars, and in the course of the next five years for a greater number of scholars. Under those circumstances the committee are of opinion that the policy that will commend itself to the town will be this: To spend such a sum of money now as will provide the school room required for the next one or two years, but to spend it in such a manner that it will not be thrown away when in the future the town shall be called upon to provide additional school accommodations. To accomplish the object stated, the committee recommend to the town to erect on the Gibbs lot during the present season a building of two stories which will accommodate about one hundred primary school scholars and will form part of a building of six rooms to be hereafter erected and completed as the wants of the town may require. In order, therefore, to satisfy themselves that their views in this regard may be successfully and economically carried out, the committee caused a plan of a school-house of six rooms to be made, to be erected upon the Gibbs lot, and an estimate to be made of the cost of completing the part thereof which they would propose to complete during the present summer. The committee submit the plans and estimates to the town, not for the purpose of asking the town to adopt the plan nor for the purpose of controlling the discretion and judgment of any building committee the town may appoint, but simply to illustrate and justify the views of the committee.

In regard to the subject of the Fifteenth Article of the warrant, "To see whether the town will purchase the whole or any part of the lot formerly occupied by the Baptist society," the committee are of the opinion that neither the lot nor the buildings thereon are required by the town for school purposes, nor are they suitable therefor. The committee are also of opinion that the lot is not required by the town for the purpose of building a Town Hall, as the town owns land already amply sufficient

and entirely suitable for that purpose when the town shall require a new Town Hall, and the building on the lot is entirely unsuitable therefor. For highway purposes, the committee are of opinion that the town requires part of the lot, and they recommend that the Selectmen be authorized to purchase so much of the land in front of the church on the lot in question as may be needed to widen the adjoining highways and to relieve the sharpness of the corner at the junction of Washington and Harvard streets.

To carry out the views of this report the committee submit two votes, and recommend that they be adopted by the town :

Voted, That a building committee be appointed to erect, during the coming summer, a building on the Gibbs lot, of two stories, which will accommodate about one hundred scholars of the Primary school, said building to form part of a larger building to be hereafter erected, and that six thousand dollars be appropriated therefor.

Voted, That the Selectmen be authorized to purchase from the Baptist society nineteen hundred and sixty feet of land to improve Harvard and Washington streets at their junction, and that seven hundred and eighty-four dollars be appropriated therefor.

Voted, That the sum of seven hundred and eighty-four dollars be raised and appropriated to purchase land of the Baptist society, at the junction of Harvard and Washington streets, as recommended by the committee.

Voted, That the plans submitted be referred to a building committee consisting of the Board of Selectmen and School Committee, to act upon as they think best, and that the sum of (\$8,500) eight thousand five hundred dollars be raised and appropriated therefor, to erect a building of brick on the town's land, of such a model as will best accommodate the schools.

Voted, That the money for the foregoing purpose be borrowed by the Town Treasurer, in such sums and at such times as may be called for by said committee.

Voted, That the sum of seven hundred dollars (\$700) be raised and appropriated for the purpose of furnishing the rooms in said school-house.

Voted, That the Town Treasurer be and hereby is authorized to borrow the sum not exceeding twenty-five thousand dollars, in anticipation of taxes, and to give the note or notes of the town, countersigned by the Selectmen, in such sums and at such times as may be called for by the Selectmen.

Dissolved.

We the subscribers, Selectmen of the town of Brookline, having given written notice to all persons interested known to them and by posting the said notice at the Brookline Railroad station in this town; of their intention to meet for the hearing of a petition to them to lay out a town-way leading from Cypress street to Beacon street, by serving the said notices on the said parties and by posting the same at least seven days before the time of said meeting, that all persons interested might then and there appear and be heard in relation to said way.

Therefore, in pursuance of said notice, the Selectmen met at their office in the Town Hall, on Thursday, the twenty-second day of December, A. D. 1859, and heard all parties desiring to be heard in relation to the laying out of said way, and then proceeded to examine and view the route of said proposed way, and again by adjournment of said meeting from said 22d day of December, 1859, to the fifth day of March, A. D. 1860; and all parties and interests known to the Selectmen having been examined, they proceeded and laid out said way, to be known by the name of Tappan street, as follows, to wit;—

The middle line of the proposed street intersects the westerly line of Cypress street at a point which measures 23.97 feet at $25^{\circ} 10' 27''$ E. from division line between land of Moses Jones and land of heirs of Robert S. Davis, taken by the New York and Boston Railroad Company for public use as a way where said line intersects the westerly line of Cypress street; thence running north $82^{\circ} 51' 09''$ west 101.19 feet; thence curving to the right with a radius of 365.25 feet 105.09 feet; thence north $66^{\circ} 16' 38''$ west 1251.37 feet; thence curving to the left with a radius of 213.85 feet 198.05 feet; thence curving to the right with a radius of 405 feet 457.43 feet; thence north $54^{\circ} 37' 35''$ west 334.04 feet; thence curving to the right with a radius of 1000 feet 86.87 feet; thence north $49^{\circ} 38' 57''$ west 1031.96 feet; thence curving to the right with a radius of 680.44 feet 422.14 feet; thence north $14^{\circ} 06' 13''$ west 700 feet to the southerly line of Beacon street, said point being 133 feet S. $74^{\circ} 15' 35''$ west from the middle of the face of a large stone bound which makes the division line between land of Moses Withington and Howard S. Williams, and said street is to be of the full and equal width of forty feet throughout its entire length.

This location of said townway is in accordance with a plan of the same made by Messrs. Shedd and Edson, Civil Engineers, dated February 1st, 1860, and filed in the office of the Town Clerk March 5th, 1860, and approved and accepted by the Selectmen on the fifth day of March afore-said.

ADJOURNED ANNUAL MEETING, APRIL 11, 1860.

Pursuant to adjournment, the inhabitants of the town of Brookline met at the Town Hall on Wednesday, April the eleventh, eighteen hundred and sixty, at half-past seven o'clock in the evening, and were called to order by the Moderator, William I. Bowditch.

The meeting then proceeded to fill the following vacancies in the list of town officers, to wit:—

Voted, To reconsider the vote passed at the preceding meeting, whereby the town voted to choose three Truant Officers, and that the two already chosen and qualified be the number.

The committee on the rules and regulations of the Public Library made a report, which was referred to the Trustees of the Public Library, to report thereon at a future meeting. The report was placed on file.

The committee on so much of the report of the School Committee as related to physical education, made the following report :

REPORT.

The committee to whom that part of the report of the School Committee was referred relating to the subject of Physical Education, offer the following report :—

That the thanks of the town are due to the School Committee for their conscientious and efficient services during the past year. Also, as all mental labor on the part of the children in the different schools and their success in their studies depends upon their physical condition during school hours, the School Committee have been wise in drawing the attention of the town to this subject. All the efforts of the committee are lost and all the labor of the teachers are wasted if this fact remain unacknowledged.

It is the opinion of your committee that the time has arrived when some description of physical exercise should be introduced into all the public schools.

The object of public education is that the pupils on leaving school be fitted for the duties of life on which they are about to enter in the best manner, and it is intended to send them forth prepared to enter upon the occupation to which their natural capacities best adapt them.

The knowledge which they gain in the public schools may be compared to the hammer of the blacksmith; once being furnished with this implement, he can forge all the other tools which he needs, this education being the only capital with which many of the children start in life. If the mind is educated at the expense of the body the system of education is greatly at fault, from the reason that the opening to all occupations requiring bodily strength are thus closed, and the pupil, in many cases, prevented from adopting that pursuit in life in which he would not only be the happiest himself, but the most useful to the community.

It will undoubtedly be said that much attention to the health of the children should be given by the parents, but of these parents a part do not realize the necessity, and others are so much occupied in procuring a subsistence that they are absolutely incapable of such attention, and it is this class who are more particularly under the charge of the community, which is obliged to support all its members who are not able to support themselves.

It is also plain that where the requirements of the school are adapted not to the ability of the greater number, but to the capacity of the three or four best scholars, then a mental strain is brought to bear upon the majority of the pupils, which produces an evil out of the power of the parents to counteract. That this is the case in the greater number of schools in New England your committee honestly believe. Having decided that some change was necessary, and that some improvements might be commenced, your committee proceeded to inform themselves as far as possible upon this subject, with a full appreciation of the difficulties which attend all innovations upon established customs.

Gymnastic apparatus, like all articles which possess great advantages, has its drawbacks and from its great power arises corresponding danger. It can only be used in the early stages with safety, when every movement of the pupil is made under the eye of a competent teacher. The great number of pupils in our schools, their different ages and strength, together with the limited time which could be given, present almost insuperable objections to its introduction. Besides, while the bold and hardy portion of the pupils would eagerly avail themselves of the apparatus, the puny and timid children would keep in the background and content themselves with looking on; thus the class who most need the exercise would not be benefited.

In Prussia, where the use of the gymnasium is better understood and appreciated than in any other country, and also in Sweden, great attention has been given to physical education as a part of the system of public instruction. In both of these countries a regular course of instruction in "Calisthenics," or "Free Gymnastics," has been introduced into the public schools.

As the result of their inquiries, your committee would recommend that an experiment in this branch of education be tried in the following manner, under the direction of the School Committee: That a competent teacher may be employed to teach "Calisthenics" in the High school for three months as a school study; and your committee earnestly recommend that the school session shall not be lengthened nor the recess shortened to give time to this study. This experiment can be fairly tried in the above manner at a cost of one hundred and fifty dollars, which sum it will be necessary to appropriate if the recommendation of your committee is adopted.

The town can then hear the report of the School Committee upon the subject and judge for themselves as to the propriety of introducing these exercises into the other schools, a measure your committee now think will be found desirable.

There is a need in our grammar schools to which your committee would call your attention, and which applies more particularly to the Pierce school. During the hot weather, and in stormy days, there is no opportunity for the girls of these schools to get any fresh air or exercise without a degree of exposure which endangers their health. For this reason their recess becomes valueless, and to protect them from the weather your committee would recommend the construction of a rough shed, a simple roof supported by columns. This cannot be done at the Pierce school at present, until the cobble stones and gravel shall be farther removed from the southerly side of the school-house and your committee would request the proper authorities to clear a space sufficiently large for this purpose as soon as it is consistent with proper economy in the use of the material.

Your committee are aware that these suggestions may seem to many people who have not considered the subject, to be foolish and a waste of the public money, but while so much money is cheerfully spent to enable the children of the town to pursue their studies, it must surely be wise to enable them to profit by these advantages to the full extent, if a small expenditure will accomplish so desirable an object.

Mental culture without corresponding physical development is useless. Mental progress to any advantageous purpose without any such development is impossible. Therefore the time taken from the books for this purpose will not lessen the amount of information gained from them.

MOSES B. WILLIAMS, *Chairman*.

WM. I. BOWDITCH.

EDWARD S. PHILBRICK.

Voted, To accept the foregoing report.

Voted, To raise and appropriate the sum of one hundred and fifty dollars for the purpose of teaching "Calisthenics" in the High school as recommended in the foregoing report.

The Selectmen, to whom was referred the Tenth Article in the warrant, relating to the purchase of a gravel pit on Fairmount, submitted the following report, viz. :—

REPORT.

The Selectmen, to whom was referred the Tenth Article in the warrant, calling the annual town meeting held March 26, 1860, in relation to purchasing a gravel pit adjoining the one already owned by the town on Fairmount, have attended to that duty, and would report as follows :

Adjoining the gravel pit belonging to the town on Fairmount is a lot of land belonging to John W. Warren, containing about one and one-fourth acres, which has the appearance of containing a large quantity of excellent gravel for making roads; this can now be had for four cents the square foot, and we would recommend to the town to purchase the same, and, for that purpose, would present the following votes :—

Voted, That the Selectmen be and hereby are authorized to purchase the lot of gravel land adjoining that owned by the town on Fairmount, if it can be obtained for four cents the square foot.

Voted, That the sum of twenty-five hundred dollars be raised and appropriated for that purpose.

All which is respectfully submitted.

JAMES BARTLETT, *Chairman*.

THOMAS PARSONS.

MARSHAL STEARNS.

BROOKLINE, April 11, 1860.

Voted, To accept and adopt the foregoing report.

The committee to whom was referred so much of the report of the Selectmen, made at a former meeting, as related to the purchasing of so much of Washington street lying south of the Charles River branch railroad that had been discontinued, and was claimed by S. A. Walker, made report thereon as follows, viz. :—

REPORT.

The committee appointed by the town to confer with Mr. S. A. Walker and the Boston and Worcester Railroad Company in regard to the passage-way leading from the highway to the railroad station, respectfully submit the following report :—

That the fee of this entire piece of land is held by Mr. Walker, subject to a right of way, formerly sold by him to the railroad corporation, over a strip twenty-eight feet wide; the remainder of this land, being the part which was fenced in on the day of the last town meeting, is also subject to certain somewhat indistinct easements held by the Worcester railroad corporation over the greater part of it.

The President of the Boston and Worcester Railroad Corporation stated to your committee that although in his opinion the corporation had already purchased more land and had done more to render the approach to their station easy and comfortable than the citizens had reason to claim, still if the committee should decide to purchase this land and should think it just and proper to assess a portion of the cost upon the corporation, such assessment would be cheerfully paid. For this offer, which was made at their first meeting, your committee wish to express their thanks, as it simplified their duties and materially lessened their labor. The only remaining question was in regard to purchasing the land, whether the advantage to be gained by the town and corporation was equal to the cost.

Your committee are of the opinion that the town needs this land for proper and economical drainage of the neighborhood; that without its purchase the present approach to the station cannot be improved. If the land over which the railroad corporation do not possess the right of way should be permanently fenced in, great inconveniences would be caused to all persons who approach the station by this passage-way.

In consideration of these facts, your committee decided to offer Mr. Walker the sum of six hundred dollars, on condition that he should deed to the town of Brookline, for a highway, the fee of all the land before described in this report, including the strip of land twenty-eight feet wide over which the Boston and Worcester Railroad Corporation now hold the right of way. This offer was, after some hesitation, accepted.

Your committee, having first ascertained that the abutters upon this land were ready to comply with the regulations of the town in constructing proper sidewalks with edgestones, agreed, upon the part of the town, with the Boston and Worcester Railroad Corporation that the whole of the land thus purchased should be laid out and properly constructed as a highway, with crossing stones for foot passengers. In consideration of the increased facility of approach thus given to the station, and the expense on the part of the town for the construction and drainage of the said road, your committee have assessed the Boston and Worcester Railroad Corporation in the sum of three hundred dollars.

Your committee now request that an appropriation of five hundred dollars be now made and placed in the hands of the Selectmen, together with the amount to be received from the Boston and Worcester R. R. Co., with instructions to complete the purchase of the land and to construct the road as agreed upon by your committee.

JAMES BARTLETT, *Chairman.*

Voted, To refer the same to the Trustees of the Public Library.

The Selectmen, to whom was referred the subject-matter of the Thirteenth Article, with instructions to apply to the County Commissioners to ascertain what action would be necessary on the part of the town to get them to rescind their order to have the road made fifty feet wide, reported verbally that it would be necessary to get up a petition requesting the Commissioners to reverse their decision and grant a new hearing.

The report was accepted.

BROOKLINE, December 3d, 1860.

The committee appointed by the town on the 22d ult. to report on the expediency of purchasing one or more parcels of land for public squares, and upon the drainage and improvements of the neighborhood of Pearl place, would report that they have carefully attended to the duties assigned them, and respectfully submit the following results of their labors:

First. Your committee are unanimous in their recommendation to the town to purchase one or more pieces of land for public uses. Especially they believe it to be the duty of the town to provide a suitable spot for a training field, and to furnish the several schools with sufficient playground, that the pupils may not be driven into the streets or be tempted to trespass upon private property. Acting under these views, your

committee have examined with care all the tracts of land which have been suggested as available for these purposes in various parts of the town, and report them, with the prices at which they are severally offered for sale, as follows :

1st. A lot owned by Col. Aspinwall, on Harvard street between Aspinwall avenue and the estate of George F. Homer, containing (60,000 feet) sixty thousand square feet; price, 20c. per foot.

2d. A lot owned by Col. Aspinwall, situated on the Mill Dam road near Pearl place, containing about 60,000 feet; price, 10c. per foot.

3d. A lot owned by Mr. Bradley, on the corner of Harvard and Marion streets, containing 50,000 to 60,000 feet; price, 14c. per foot; with lot adjoining, belonging to Dr. Wild, about the same size, which can probably be purchased at 10c. per foot.

4th. A lot owned by Thomas Griggs, on Harvard street near Mr. Selfridge's, containing four and a half acres; price, 8c. per foot.

5th. A lot owned by Thomas Griggs; on Beacon street near Mrs. Mellen's, two acres; price, 8c. per foot.

6th. A lot owned by Thomas Griggs, between Beacon and Webster streets, one acre; price, 10c. per foot.

7th. A lot owned by Charles Stearns, the triangular piece on Harvard street, near his house, one acre; price, 10c. per foot.

8th. A lot owned by Samuel A. Walker, on Hyde Park, five acres; price not obtained.

9th. A lot on the Jones farm, on the westerly side of Cypress street, eleven and 43-100 acres; price, \$2,800 per acre.

10th. Three lots on Boylston street, extending from estate of Benj. Goddard to Cypress street: 1. Bradley Hill, owned by Mr. Hart; price, 14c. per foot. 2. Seven acres, owned by Mr. Philbrick; price, 5c. per foot. 3. Three acres, owned by the Davis heirs; price, \$2000 per acre.

11th. A lot of Nathaniel Francis, on Walnut street, adjoining school-house near Dr. Hedge's church, 42,000 feet, at 10c. per foot.

Second. Your committee recommend the purchase by the town of the 11 43-100 acres of the Jones farm, at a price not exceeding \$23,000, or of the lots extending from the Goddard estate to Cypress street, about 15½ acres, at an aggregate of not exceeding \$37,500.

Your committee would suggest that the Bradley Hill tract offers very desirable locations for a Town House, or for other public buildings, upon that part of it bounding upon Cypress street, and that either this tract or the Jones-farm lot could be made suitable for a training field.

Third. Your committee are decidedly of the opinion that if the school-house near Dr. Hedge's church is to be maintained, the land adjoining, of Mr. Francis, should be purchased as a playground for the pupils, otherwise the school should be abandoned.

Fourth. In relation to the matter of the improvement of Pearl place, your committee recommend the town to pass the following votes :

Voted, That the Selectmen be directed to purchase a piece of land in or near Pearl place, of about one acre, for a public square, provided it can be done at reasonable cost, and that they be instructed to adopt, as soon as may be judicious, methods of drainage of that neighborhood.

Voted, That the sum of \$6,000 be appropriated for these purposes.

Fifth. Your committee further recommend the adoption of the following vote :

Voted, That the sum of \$—— be appropriated for the carrying out of such purposes as have not been already provided for.

Signed, MOSES B. WILLIAMS, Chairman.

JAMES A. DUPEE, Secretary.

For the Committee.

Voted, To accept the foregoing report.

Voted, That the several recommendations of the committee be taken up in order.

The first recommendation of the committee was then taken up, to wit :

First. Your committee are unanimous in their recommendation to the town to purchase one or more pieces of land for public uses.

Voted, That the question on the adoption of the foregoing recommendations be taken by Yeas and Nays.

At the request of the Moderator, William Aspinwall called the names on the list.

The result of the voting was as follows, viz. :

Yeas, one hundred and fifteen ;

Nays, one hundred and thirty ;

—and thereby defeating the recommendations of the committee.

Voted, That the thanks of the town be presented to the committee for their careful and arduous duties in preparing the foregoing report.

Voted, To adjourn *sine die*.

Dissolved.

Attest : B. F. BAKER,

Town Clerk.

REPORT.

The Selectmen of the town of Brookline, after giving legal notice to all persons and parties interested known to them of their intention to lay out as a town way the private way known as Chestnut street, leading from Walnut street in Brookline to Perkins street, near Jamaica Pond, in West Roxbury, met at their office in the Town Hall in Brookline, on Tuesday, the eighth day of May, A. D. 1860, to hear all parties interested therein, and again by adjournment, on Monday, the twenty-fifth day of February last, A. D. 1861, and again, on Saturday, the sixteenth day of March, 1861, and all parties and all interests known to the Selectmen having been examined, they proceeded and laid out said private street as a townway, to be known by the name of Chestnut street, to wit :

The easterly and northerly line of said street is described and bounded as follows: Commencing at a monument in Walnut street marked A placed at the northeasterly corner of land of the heirs of Caleb Clark; thence running southerly one hundred and ninety-five (195) feet to a monument B; thence again southerly 248.2 feet to a monument C; thence again southeasterly (by a curve of 40 feet radius) 38 feet to a monument D; thence by the same curve (372 feet) to a monument E; thence (by a curve of 526 feet radius) 174 feet to a monument F; thence (by a curve of 462 feet radius) 139 feet to a monument G; thence 192 feet to a monument H; thence 85 feet to a monument I; thence (by a curve of 304 feet radius) 77 feet to a monument K; thence 40 feet to a monument L; thence (by a curve of 304 feet radius) 67 feet to a monument M; thence 126 feet to a monument N; thence 184 feet to a monument O; thence 245.5 feet to a monument P; thence 215 feet to a monument Q; and the whole length of said way from Walnut street to the town line is 2397.7 feet, and said townway shall be of the full and equal width of (40 feet) forty feet, measuring westerly from said described line.

The angles on the westerly side, opposite B, shall be rounded by a curve of 366 feet radius, and the angles on the southerly side of said street, opposite monument P, shall be rounded by a curve of 430 feet radius, both of which curves are shown on a plan of said way.

This location of said townway is in accordance with a plan of the same made by Amos R. Binney, surveyor, dated March 14th, 1861, and filed in the office of the Town Clerk, March 14th, A. D. 1861, and approved and adopted by the Selectmen, on Saturday, the sixteenth day of March aforesaid.

The Selectmen have made no award for damages in the laying out of said way, the abutters, in consideration of the benefit to be derived in making the same a public way, having agreed, in writing, to relinquish all claims on the town for damages.

And we have given the owners of the land over which said way is so laid out thirty-six days from this date in which to remove all fences, walls and trees standing on land taken for said way. And the townway so laid out is hereby reported to the town for their acceptance, and when so accepted, allowed and recorded, is forever to be known as a public way.

The Selectmen further report that the expense to the town for the making and grading said way to be safe and suitable for the public travel, will cost the estimated sum of one thousand dollars.

—and the meeting nominated and chose the following-named gentlemen :

On motion of George F. Homer, it was—

Voted, That the vote of the town passed at the last meeting whereby they voted to raise and appropriate the sum of three thousand five hundred dollars for making and widening Clyde and Newton streets, be and hereby is reconsidered.

Voted, That the sum of two thousand dollars be raised and appropriated for the purpose of making and widening Clyde and Newton streets.

Voted, That the sum of (\$3,186) three thousand one hundred and eighty-six dollars be raised and appropriated for the state tax.

The Selectmen and several committees to whom various articles in the warrant were referred at the last meeting, presented the following reports, to wit :

The committee to whom was referred the several articles in the warrant calling the annual town meeting, held March 25, 1861, have attended to the duties assigned to them and would report as follows, to wit:—

Article Fifth. To determine whether the town will purchase the site of the "Brookline Fort" as a location for a primary school-house.

After examining into the subject in all its bearings, we have arrived at the following conclusions: That there appears to be a necessity for a primary school in the neighborhood of Brookline Fort. They do not deem it judicious to purchase that particular lot at the price asked for it, and they believe that a better one may be obtained therefor. They therefore request that the subject may be postponed, and that the committee have further time to select a site which they can recommend to the town to purchase.

Article Sixth. To determine whether the town will widen the easterly end of Beacon street, on the south side, to the line of the street.

Your committee would recommend that the town so widen out said street, and that the sum of one thousand dollars be raised and appropriated for that purpose.

Article Seventh. To see if the town will take any action in relation to purchasing a lot of land on Walnut street, adjoining the stone school-house, for a yard to the same.

Your committee, after due deliberation upon the subject, do not think that the said lot is the most suitable one for the use of the school nor the present school-house in the most desirable situation in that neighborhood. A lot can be obtained on Chestnut street, but a short distance from the present school-house, that is every way more desirable and better suited for a school than the present one. It can also be obtained for one-half the price per foot asked for the lot named in the above Article. With this statement, they submit it to the town, for them to decide, it being evident that more land is needed with the present school-house, or a larger and better lot in the immediate neighborhood.

Article Eighth. To see if the town will take any action in relation to providing a suitable building for the Public Library.

Your committee deem it advisable to refer the subject of this Article to a future town meeting.

Article Ninth. To see if the town will pass any additional by-laws in relation to playing ball in the streets.

This matter was carefully considered by your committee, and in conclusion they would recommend that the town pass the following by-law, to wit:

"No person shall play at foot-ball, cricket, base-ball, or any other game of ball, or throw stones or snowballs, within any of the public streets or roads of the town, under a penalty for each offence of not less than one dollar nor more than twenty dollars, to be paid, on recovery, into the town treasury to the use of the town."

Article Eleventh. To see if the town will authorize the purchase of gravel banks for the westerly and northerly parts of the town; also, to purchase land for a way from Warren street to the gravel bank near the reservoir.

Your committee deem it advisable to make such purchase, and would recommend to the town to purchase lots numbered 62 and 63 in a plan of Allston place, on Winchester street, in the edge of Brighton, containing about 52,500 square feet of land, and that the sum of (\$900) nine hundred dollars be raised and appropriated for that purpose. Your committee also recommend that the sum of (\$300) three hundred dollars be raised and appropriated to purchase a lot of gravel land on Heath street. Also, that the sum of (\$500) five hundred dollars be raised and appropriated to purchase land for a way from Warren street to the gravel bank near the reservoir and for the fencing and walling of the same.

Article Twelfth. To see what action the town will take in relation to ordering the filling up of Pearl and Davis places, in order to protect the public health.

Your committee find a very bad state of things in Davis place, such as requires immediate attention from the Board of Health. They therefore recommend that the town raise and appropriate the sum of (\$300) three hundred dollars, to be used by said Board of Health in such way as they in their discretion shall deem necessary.

Article Thirteenth. To consider and act upon the subject of purchasing a lot of land for a playground for the scholars of the Pearl place school.

This subject has received a great deal of attention from the committee, and they have investigated to the best of their judgment all the facilities offered. They agree that it is desirable to obtain such accommodations as are asked for in that vicinity, either by purchasing land adjoining the present school-house or some in the immediate vicinity. We therefore had a plan made of such lots as could be purchased to enlarge the present school-house lot to the best advantage, as also the prices asked for the same. We found that to enlarge said lot to 19,120 square feet would cost about (\$4,000) four thousand dollars; if enlarged to 29,100 square feet, it would cost (\$7,000) seven thousand dollars. At this last estimate we found it very difficult to arrive at any definite conclusion, inasmuch as we could not get any definite fixed prices for the land of some of the abutters. We also obtained a plan and estimate of a lot of land belonging to Col. Thomas Aspinwall, lying a few hundred feet east of the above-named lot, and we found that the town could purchase and grade a lot of 29,100 square feet for the sum of (\$3,450) three thousand four hundred and fifty dollars, and from that up to 60,000 square feet, at the same rate; also, that the present school-house could be moved and placed on the same in good order for the sum of (\$650) six hundred and fifty dollars. Under these circumstances we deemed it best to report the facts in the case to the town, with the desire that they would take such action in the matter as they in their judgment might deem best.

Article Fourteenth. To consider and act upon the subject of draining the low lands usually known as Pearl place, and laying out, grading and accepting the streets thereon.

Your committee consider this a subject of great importance, and demands more attention than they have had time to bestow upon it. They therefore request further time to investigate the matter.

Article Sixteenth. To consider and act upon the expediency of providing a suitable place for the hose-carriage in the village.

This your committee thought should be done, and they would therefore recommend that the sum of (\$1,300) one thousand three hundred dollars be raised and appropriated for the purchase of a lot of land and the erection thereon of a brick building suitable for that purpose.

JAMES BARTLETT,

JAMES BARTLETT,
 MARSHAL STEARNS,
 THOMAS PARSONS,
 E. R. SECOMB,
 N. G. CHAPIN,

Selectmen of the Town of Brookline.

NORFOLK, SS.

BROOKLINE, June 8th, 1861.

In pursuance of the within warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place and for the purposes within named, by leaving a printed notice of the same at their last and usual place of residence.

S. C. HOPKINS,

Constable of Brookline.

In pursuance of the foregoing warrant, the citizens of the town of Brookline met in the Town Hall in said town, on Thursday, the thirteenth day of June, eighteen hundred and sixty-one, and were called to order at seven and a half of the clock in the evening, by the Town Clerk, who proceeded to read the warrant calling said meeting and the return thereon, and presided during a choice of a Moderator, under the First Article in said warrant.

Voted, To choose a Moderator by nomination.

The meeting then nominated and chose for Moderator, James Bartlett, and he took the chair.

The Second Article in the warrant was then taken up, viz. :

To hear and act upon the report of the military committee.

The chairman of the military committee presented the following report, to wit :

REPORT.

BROOKLINE, June 13th, 1861.

Mr. Moderator,—The Legislature of the State having been called together, and having adjourned for the present, after taking such action as regards the various military appropriations needed in this crisis of our national existence, the Military Committee appointed by the town have deemed it proper to request the citizens to hear their report of such action as they have taken, and to call the attention of the town to the vote passed at the meeting of the 29th day of April last, in regard to raising the amount appropriated by the town and assessing it as a separate tax.

In presenting their report, the committee wish to state that their meetings have been fully attended, each subject which has been acted upon has been carefully weighed and considered, and that in all cases their actions have been unanimous.

The citizens of the town are doubtless aware that a company was raised for the war, in the town of Brookline, which incorporated

the men who had been raised in West Roxbury. This company was officered entirely from the town of Brookline, was mustered into the service of the State, and the officers were commissioned by the Governor. As soon as this had been done, your committee proceeded to make the necessary preparation to uniform the company and to make arrangements to procure such articles as they deemed important to make them comfortable and to fit them for efficient service. This company consisted of ninety-five men. The next orders received by Captain Wild, who was in command of this company, was from the Governor, directing him to take command of Company A, in the First Regiment, and to take the two lieutenants with him, this company having been left without officers by the promotion of the captain and the severe illness of the two lieutenants. Captain Wild was also directed in the same order to fill up Company A from the Brookline company, and to distribute the balance of the men in the different companies of the same regiment which were not already filled up to the standard of the requisition of the United States. These orders were obeyed, and the regiment was then mustered into the service of the United States.

The greatest difficulties with which your committee have had to contend was the change in the position of these men. They have been embarrassed between the fear of wasting the funds confided to them, and, on the other hand, of causing the men to suffer and retarding the public service by delay in their action. If the Brookline company had been allowed to go into service as originally intended, your committee feel that they may safely assert that such arrangement had been made as would send them forth in as good condition and as well provided as any company which has left the state. The moment the change took place all arrangements which had been made for this company, as a company, that it was possible to countermand were countermanded, and the attention of the committee was given to providing the officers and men individually with such articles as were necessary for their comfort and health, and this they believe has been done. A small amount of money has also been forwarded to such of the citizens of this town as had left in the service of the state before you committee had been appointed, to enable them to provide themselves with some small comforts, of which they would otherwise been destitute.* It would be very ungrateful on the part of your committee to leave this part of their report without expressing their thanks to the ladies of the town for their labor in preparing clothing, and for their unwearied efforts to second the action of the committee.

In compliance with the vote of the town relating to military instruction, your committee have given as much attention to the drill of the citizens as was possible without neglecting more pressing matters of immediate importance, and they now hope to have more time to devote to this subject, and to place it in the power of every citizen of the town to acquire some knowledge of military drill and discipline. The committee have procured an armory and have engaged the services of an armorer, who is also a competent instructor, and have purchased such articles as were absolutely needed for carrying out their instructions,

and which they could not otherwise procure. The committee would also state that by the resignation of Captain E. A. Wild a vacancy has been created in the Military Committee. Your committee believe that the action of the Legislature has legalized all the expenditures made by the town for military purposes, and that the expenditure of a larger sum than seventy-five hundred dollars will not be needed during the present year.

All of which is respectfully submitted,

MOSES B. WILLIAMS, *Chairman.*

Voted, To accept and allow the foregoing report.

Voted, That James Bartlett be and hereby is appointed a member of the Military Committee, in place of Captain E. A. Wild, resigned.

Third Article taken up :

To see what action the town will take upon any recommendations of the Military Committee in relation to the appropriation voted at the town meeting held on the twenty-ninth day of April last.

On motion of William Aspinwall, it was —

Voted, That the vote passed by the town at its meeting held on the twenty-ninth day of April last, appropriating fifteen thousand dollars, to be called the Military Fund, be and hereby is so amended that seventy-five hundred dollars only of said amount shall be raised by taxation during the present year, and that said sum of seventy-five hundred dollars be included by the Assessors with the other moneys to be raised by taxation, and be assessed upon the polls and estates, real and personal, of the inhabitants and non-residents, together with and in the same manner as the other taxes are raised, and that the Treasurer be authorized to borrow the whole or any part of the sum heretofore appropriated, if the same shall be required by the Military Committee.

NOTE.—This vote was incorporated in the report of the Military Committee, and is on file with the same.

B. F. BAKER, *T. C.*

The business of the meeting being all transacted, it was

Voted, That this meeting be dissolved.

Dissolved.

Town Clerk.

The meeting then proceeded to fill the vacancies in the various offices occasioned by non-acceptance of the persons chosen at the last meeting, viz. :

Surveyor of Lumber and Measurer of Wood and Bark : J. Anson Guild.

Truant Officers : F. C. Sherman, J. P. Sanborn, R. A. Chace.

Truant Justice : C. E. Abbott.

Fire Ward : Oliver B. Delano.

Trustee Public Library for three years : James A. Dupee.

John N. Turner, chairman of the committee chosen at the last meeting to inquire into and report upon the expenditures of the town and report thereon, presented the following report, viz. :

REPORT.

The committee appointed at the annual meeting to consider and report upon the expediency and practicability of curtailing the expenses of the town have attended to the duty assigned them, and ask leave to present their report.

As from year to year it is observed that the affairs of the town are increased, the conviction forces itself upon the minds of the citizens that there must be on the part of some one more or less of neglect or prodigality. Hence the cry of retrenchment and reform meet with a ready response. Committees are chosen, reports are presented, and still expenses increase, and thus it will ever be in prosperous and enlightened communities. Whenever as a town we begin to decay, our citizens to be reduced, and property difficult of sale, then we may look for a reduction of our expenses, our taxes, and our ability to pay them. An analysis of the last year's expenditures will show that, for strictly municipal purposes, the amount paid has not been large. If our county and state taxes are somewhat startling, we remember that this is only an evidence of our wealth, not of our extravagance.

It is well for us to bear in mind that the town uniformly requires the best of everything. We are justly proud of our roads, our school-houses, and our schools. We demand the luxuries of cities, and make appropriations for sidewalks, drains, street crossings, and lighted streets. These things are all right and proper, and are evidence of advancing civilization, but they are to be had only by paying for them.

Now, while we do not hold economy to be the highest virtue, nor Poor Richard as the greatest saint in the calendar, and while it is evident from our investigations that the work assigned to your committee has been anticipated by the Selectmen and School Committee during the past year, still we are of the opinion that there is room for improvement in some particulars. For, in public affairs, great care ought to be exercised in order that what is done should be well and economically done, so that while the town is liberal, its servants should be all faithful. We venture to suggest that the Selectmen consider the propriety of appointing some competent person whose duty it shall be personally to superintend the repairs which may be ordered upon the highways, and see to it that the work for which the town pays shall be properly, faithfully, and cheaply done.

We also suggest that when the town requires work to be done or services to be rendered, that publicity be given to such wants, to the end that proposals and competition be invited. Again, we are of the opinion that more light may be procured for the amount expended, or the same light for a less sum. In view of the heavy burden to be imposed upon all classes of the community to meet the wants of the Government in its present conflict with a gigantic rebellion, it might seem that your committee would be justified in recommending a reduction of the salaries paid by the town. But we have chosen rather to leave this matter with the Selectmen and School Committee, with the suggestion to those who render services to the town, each for himself, or herself, to decide what pecuniary consideration they ought to make to the town, and that any or all sums which may be so allowed or returned to the Treasurer, be made to appear in the reports as donations to the town and not as a deduction from salaries. In conclusion, your committee recommend the following appropriations for the current year.

Submitted in behalf of the committee,

J. N. TURNER, *Chairman.*

The Town Clerk then took up the First Article in the warrant :

To choose a Moderator.

Williams, chairman of the committee, stated that the committee had enlisted and had placed in the United States service for three years one hundred and thirty men, which, as near as the committee could ascertain, would more than cover the town's quota under both calls.

Voted, That the thanks of the town be tendered to the Military Committee for the energetic manner in which they have thus far filled up the town quota of men for the service of the United States.

Resolved, That the citizens of the town do hereby tender their services to the Military Committee to render such aid as may be needful to assist them in their work of enlistment or such other duties as they request them to do.

CITIZENS' MEETING, JULY 12, 1862.

CITIZENS OF BROOKLINE.

“ ROUSE YE AT YOUR COUNTRY'S CALL ! ”

An order having been issued by the Governor of this Commonwealth as Commander-in-Chief, viz. :

That the President of the United States has called upon this Commonwealth to furnish fifteen thousand volunteers to form new regiments and to fill the ranks of those from the Commonwealth now at the seat of war, and that the number for this town to furnish is sixty-one men.

We therefore request all the citizens of the town of Brookline to meet at the Town Hall, on Saturday, the twelfth instant, at eight o'clock in the evening, to take into consideration what course it will be best for the town to take in enlisting its proportion of men, and to secure said enlistment as soon as possible, that our brethren and neighbors now in arms and battling sternly and courageously for the maintenance of the best form of government that ever existed may know that strong arms, willing hearts and liberal hands are ready to sustain them in their endeavors to uphold the Union, the Constitution, and the laws.

JAMES BARTLETT,
MARSHAL STEARNS,
THOMAS PARSONS,
E. R. SECOMB,
N. G. CHAPIN,

Selectmen of the Town of Brookline.

BROOKLINE, Mass., July 12th, 1862.

In pursuance of the foregoing notice, which had been posted by hand-bills around the town and by being published in the Boston Daily Journal and the Boston Daily Traveller, the citizens of the town of Brookline assembled at the Town Hall, on Saturday, the twelfth day of July, in the year of our Lord one thousand eight hundred and sixty-two, and were called to order by the Town Clerk, at eight of the clock in the evening.

The meeting proceeded to organize by the choice of the following officers, viz. :

Chairman—James Bartlett.

Secretary—B. F. Baker.

Mr. Bartlett on taking the chair called the meeting to order, while prayer was offered by the Rev. J. Lewis Diman, who fervently besought the Divine guidance, protection and help in this our time of trial and need.

The chairman then briefly stated the object of the meeting as set forth in the call, and that the Selectmen deemed it best to consult with the citizens in regard to the best course to pursue in the present emergency.

Thomas Parsons, Esq., made a spirited and patriotic speech in favor of using all the means at our command to put down the rebellion and enforcing the laws throughout the whole county, and if any one obstructed the same, to crush him out as a traitor. He was in favor of enlistments and of paying a liberal bounty to volunteers.

On motion of Thomas Parsons, it was—

Voted, That the Selectmen be requested to call a town meeting as soon as possible, to raise money to pay those who will volunteer for the service called for by the President of the United States.

A. A. Lawrence offered to advance the sum of six thousand dollars to pay bounties.

Stirring and spirited speeches were made by J. Murray Howe, Amos A. Lawrence, G. Twichell, Henry Wenzel, C. W. Wilder, and others.

Voted, That the Selectmen be requested to open a recruiting office immediately, for the enlistment of men, and that the sum of one hundred dollars be paid each volunteer when sworn into the service of the United States.

Voted, That a recruiting office be opened at military headquarters on Monday morning next.

The meeting was very full and unanimous.

Adjourned.

Attest: B. F. BAKER, *Secretary*.

CITIZENS' MEETING, AUGUST 9, 1862.

CALL.

“RALLY TO YOUR COUNTRY'S CALL.”

“The citizens of the town of Brookline are invited to meet in the Town Hall, at 8 o'clock, Saturday evening, August 9, to consider what measures should be taken for the immediate enlistment of the quota of troops called for from this town.

“Let it not be said that the patriotism and liberality of the citizens of the old town of Brookline are not equal to that exhibited by citizens of other towns and cities of our old Bay State.”

In pursuance of the foregoing call, which had been posted about the town and published in the Boston Daily Journal and Boston Daily Traveller, the citizens of the town of Brookline assembled in the Town Hall, on Saturday, the ninth day of August, in the year of our Lord eighteen hundred and sixty-two, and were called to order at eight of the clock in the evening, by William A. Wellman, Esq.

The meeting organized by the choice of the following officers, viz. :

Chairman—William H. Gardner.

Secretary—B. F. Baker.

Mr. Gardner then read the foregoing call to the meeting, and proceeded to make a patriotic and stirring speech, and in an impressive and earnest manner to lay before the assembly the unrighteousness of the course pursued by the states in rebellion, the utter worthlessness of their pretence for the right of secession, and the importance and need of all loyal persons uniting together with all their might and energies and means to subdue and crush out this unnatural rebellion and restore the prestige and power of the whole United States of America.

Mr. Moses B. Williams, Chairman of the Military Committee, stated that when they were chosen, about eighteen months ago, the enthusiasm was so great on the part of the people that the question was not who would go to join the army of the Union, but who should stay at home; now the question was, who will come forward and enlist in this great cause of right and law, and he thought that the people should do all in their power to encourage and help on this glorious cause.

Voted, That a committee of five be appointed by the chair to report a resolution or some course of action to the meeting, to be pursued at the present time.

The chairman appointed the following gentlemen, viz.: George B. Blake, Moses B. Williams, William H. Jameson, John C. Abbott, George Bacon, committee on resolutions.

Leverett Saltonstall, of Newton, addressed the meeting in an enthusiastic and glowing speech. He urged the importance of united action to save and preserve the institutions of the country, which were in danger from rebels in arms, who, in their thirst for place and power, had thrown off their allegiance to the government, had violated their oaths of fealty, and were now endeavoring to overthrow and destroy the government they had sworn to support, and destroy the constitution which lies at and is the foundation of this great and mighty people. He closed with an earnest and urgent appeal to all the citizens of this old Commonwealth to respond to the pressing demands of this hour. Mr. Saltonstall closed his remarks amid the greatest enthusiasm of the meeting, the band playing "Hail Columbia."

The committee on resolutions now returned and reported the following vote, viz.:

Voted, That the Military Committee be directed to fill the quota of recruits assigned to this town forthwith and the funds furnished by individuals as subscribed upon a paper now presented to this meeting be placed in the hands of said committee for that purpose.

The Military Committee reported that up to the present time forty-seven recruits had been obtained upon the roll.

The meeting was addressed by Eben Jordan, J. M. Howe, — Ingals, late from the army of the Potomac, and several others, who urged in a fervent manner the sustaining of the Government and the most vigorous prosecution of the war.

J. Kent Stone, a young man of this town who had enlisted, appealed in well chosen remarks to the young men of the town to come and join the ranks with him and do battle for their country in this her hour of need.

W. S. Spencer also urged, in a most impressive manner, upon all who can do or say anything to help along the cause, by all means to do it, and not to think we had a negligent or idle foe, for all that could be done they were doing, giving

freely of their means and urging their sons and all whom they could influence to join the ranks of the rebels.

Henry Wheelock, a volunteer, also urged the young men to come forward and join with him the ranks of the Union Army to help put down the rebellion.

T. Dunlap Smith, a returned soldier, who was taken prisoner by the rebels at the battle of Bull Run, gave some interesting accounts of his experience while in prison at Richmond, Va., stating that they were treated in a cruel and harsh manner, being kept on the coarsest of fare and being denied proper medical and surgical attendance, and that a spirit of hate pervaded the rebel community of that city.

M. B. Williams, chairman of the Military Committee, agreed to furnish one man for three years, and do all he could to encourage others. A citizen of the town pledged himself to furnish a man. J. Murray Howe agreed to send a man and give the sum of five hundred dollars towards a soldiers' fund, to be used for those who may return sick or disabled, and their families.

A note was read from Edward Atkinson, pledging two hundred dollars to the soldiers' fund.

Voted, That the Selectmen be requested to call a town meeting forthwith, to provide for the more energetic enlistment of volunteers.

Voted, To adjourn, to meet at this place on Tuesday evening next, the 12th instant, at eight o'clock.

The meeting was very large, the hall being entirely full and a great many unable to obtain an entrance. The whole proceedings of the meeting were conducted with a unanimity and enthusiasm rarely witnessed.

Adjourned with three rousing cheers for the Union.

Attest: B. F. BAKER, *Secretary*.

ADJOURNED CITIZENS' MEETING, AUG. 12, 1862.

Pursuant to adjournment, the citizens of the town of Brookline assembled at the Town Hall on Tuesday evening, August the twelfth, 1862, amid the firing of cannon, the ringing of the bells and the playing of the band.

The Chairman, William H. Gardiner, called the meeting to order at eight o'clock, and addressed the meeting in a spirited and energetic manner on the necessity of increased action in the present state of our national affairs, and then called upon the Military Committee to report what progress they had made since the last meeting.

M. B. Williams, chairman of the committee, reported that the roll was full and more than full.

This announcement was received with the greatest enthusiasm by the meeting, and three cheers were given for the committee.

The chairman pledged himself to send a man. Shadrach Robinson pledged himself to furnish three men.

On motion of W. A. Wellman, it was—

Voted, That the Military Committee be authorized to continue recruiting for three years' service, and to pay such bounty as they may deem advisable until the list shall reach the number required for volunteers and for drafted men.

Major D. K. Wardwell, from the army of the Potomac, gave an account of the army and its manner of living, marching and fighting; also, of the best manner for new recruits to take care of their health and render the most help to the cause. He closed with an eloquent and fervent appeal to all classes and parties to join to uphold the old flag and preserve the best country that ever the sun shone upon, to be a blessing and a home to the generations that shall come after us, as it has been to us.

Judge Manchester of Illinois addressed the meeting in an eloquent and patriotic manner, urging a complete union of all the people of the loyal States for the one grand object of putting down the rebellion and maintaining the Union.

On motion of J. M. Howe, it was—

Voted, That a committee of five be added to the Military Committee, to solicit additional subscriptions to the guarantee fund, and to raise the town's quota of men.

Volunteers were called for, and the following gentlemen responded, viz.: Nehemiah Washburn, B. F. Baker, John M. Glidden, Charles P. Gardiner, Wm. H. Jameson.

The hall was again filled to its utmost capacity and many were unable to gain admittance. The whole proceedings were patriotic and very harmonious.

Dissolved with three cheers for the Union.

ADJOURNED ANNUAL MEETING, APRIL 7, 1863.

Pursuant to adjournment, the citizens of the town of Brookline assembled in the Town Hall in said town, on Tuesday, the seventh day of April, in the year of our Lord one thousand eight hundred and sixty-three, and were called to order at half-past seven of the clock in the evening, the Moderator, William I. Bowditch, in the chair.

On motion of J. Davenport, it was—

Voted, That the vote passed at the annual meeting, held on the twenty-third day of March last, whereby they voted to have eleven Constables for the ensuing year, is reconsidered.

Voted, That the number of Constables for the year ensuing be ten, the number already qualified.

The meeting then proceeded to fill the vacancies in the various offices, occasioned by the non-acceptance or non-qualification of those persons chosen at the last annual meeting, viz. :

Field Driver: George R. Phelps.

Surveyors of Lumber and Measurers of Wood and Bark: Oliver Cousens,
Wm. D. Coolidge.

Truant Justice: George Griggs.

Auditor: George E. Hersey,

Thomas Parsons, Esq., chairman of the committee to whom was referred the Sixth Article in the warrant calling the annual meeting, relating to the erection of school-houses and providing school accommodations, presented the following report, viz. :

REPORT.

ADJOURNED TOWN MEETING, April 7, 1863.

The committee appointed at the annual town meeting, held March 23d, to examine into the subject-matter in section sixth of the warrant, and also the condition of the Newton street school-house, have attended to their duties, and respectfully report as follows :

The wants of the High school require that the Pierce primary school, now in the lower room of the High-school building, should be removed. It is therefore recommended that said department be removed to the primary-school house, and that the centre building, as described in plans drawn by Follen & Curtis, be built and finished immediately for its accommodation.

In regard to the Pearl place school-house, it is found that sufficient accommodations can be provided by erecting a north wing to the present building, but as the lot of land is much too small now, and the school-house when so enlarged will cover the entire length of the land, and as the ventilation of the rooms is very bad, owing to the low position, the cellar being shallow and wet the most of the year, your committee would therefore recommend that a lot of land on Pond street, containing about forty thousand square feet, be purchased by the town, that the present school-house be removed to said lot, and the wing then added. Sufficient accommodation for many years would then be acquired on a high, pleasant site, at not a large outlay, as the land now occupied is valuable for house-lots.

The Newton street school-house is a fair specimen of a country school-house, and as the number of seats has been and are sufficient, no immediate action seems necessary.

THOMAS PARSONS.

JOHN C. ABBOTT,

JOHN A. BIRD,

N. G. CHAPIN,

Committee on the Sixth Article.

Voted, To accept the foregoing report.

On motion of Moses B. Williams—

Voted, That the Selectmen be a committee, with full powers, to purchase a lot on Pond street, of the Brookline Land Company, not exceeding forty thousand feet, at a price not exceeding ten cents per foot; also, to make contracts for removing the Pearl place school-house from its

present site to said lot, build an addition thereto, and finish and furnish the same; also, to make contracts for erecting and finishing the centre building of the Pierce primary school-house, and furnish the same.

Voted, That a sum of money not exceeding fifteen thousand dollars is hereby appropriated for said purposes.

Voted, That the Treasurer is hereby authorized to borrow a sum of money not exceeding fifteen thousand dollars, in such sums and at such times as may be necessary for the above purposes, under the authority of the Selectmen, and give the notes of the town for the same.

Voted, That the Selectmen are hereby authorized to sell the lot of land on Western avenue and Pearl place, when it can be done to the best interests of the town.

Otis Withington, Esq., chairman of the committee to whom was referred the subject-matter of the Seventh Article in the warrant, in relation to widening Beacon street across the low land, presented the following report, to wit:

REPORT.

BROOKLINE, April 4th, 1863.

The committee appointed at the annual town meeting held March 23d last, to whom was referred the subject-matter of the Seventh Article in the warrant, to report at the adjourned meeting,—said article reads as follows, to wit: “To determine whether the town will widen the easterly end of Beacon street on the south side to the town line,”—report thereon as follows, viz.:

The committee upon an examination of the premises find that the peculiar location and condition of the piece of road above referred to it is highly important that something should be done for the accommodation of the present and future travel on this main avenue connecting Brookline with Boston; the road being built upon a marsh, has been crowned up in the centre so high that there is but a single track in the middle of the road that is pleasant to drive upon. To remedy this without widening, the sides must be filled to a considerable depth, and the plank sidewalk raised as high as will be required to widen the street, and no opportunity will be afforded to set out shade trees, which are not only ornamental to the street but a great luxury to the passengers. The same amount of grade required to grade the street properly will fill out the southerly side to the line, and will give the tracks for vehicles at a good grade, and if the town adopts this course, Mr. Lawrence, with his accustomed liberality, offers to remove the fence and sidewalk to their proper places and to set out shade trees at his own expense. For these considerations,

the committee unanimously recommend the widening of the street on the southerly side to the line as far as the marsh extends, and the adoption of the accompanying vote.

Respectfully submitted,

OTIS WITHINGTON,
THOMAS GRIGGS,
SAM'L A. ROBINSON,
CHARLES STEARNS, Jr.,
A. B. SHEDD,

Committee on Seventh Article.

Voted, To accept the foregoing report.

The Committee submitted the following vote, to wit :

Voted, That the Surveyors of Highways be authorized and instructed to widen and grade the easterly end of Beacon street on the south side across the marsh to the line, and that the sum of fifteen hundred dollars be and the same hereby is appropriated for that purpose, provided the abutters, at their own expense, remove the fences and sidewalks to their proper places and set out shade trees on the line of said widening whenever requested so to do by said Surveyors of Highways.

On motion of James Bartlett, the above-reported vote was amended as follows :

Voted, That the words "the south side," and "to the line," be struck out, and the words "fifteen hundred dollars" also be struck out, and the following words inserted, to wit : "widen on both sides to the entire width of the street as laid out, commencing at the upland and completing the work as far as the money appropriated will pay, and that the sum of two thousand five hundred dollars be appropriated for that purpose."

The vote as amended was then passed, as follows, to wit :

Voted, That the Surveyors of Highways be authorized and instructed to widen and grade the easterly end of Beacon street on both sides to the entire width of the street as laid out, commencing at the upland and completing the work across the marsh as far as the money appropriated will pay, and that the sum of two thousand five hundred dollars be appropriated for that purpose, provided the abutters, at their own expense, remove the fence and sidewalk

Adjourned Annual Meeting, April 7, 1863.

to their proper places and set out shade trees on the line of said widening whenever requested so to do by said Surveyors of Highways.

The same committee, to whom was referred the subject of the Tenth Article of the warrant, in relation to Washington street, reported as follows, to wit :

REPORT.

BROOKLINE, April 7th, 1863.

The undersigned, a committee appointed by the town at its annual meeting, held at the Town Hall on Monday, March 23d, last past, to consider upon the grade and condition of Washington street from School street to the Brighton line; also upon and define the lines of said street and all that is necessary to put it in complete repair, and report thereon at the adjourned meeting, having attended to the duty assigned them, submit the following report, to wit :

That Washington street from School street to the Brighton line is of very uneven width and grade. At some places there is but about eighteen feet in width for carriage travel. The gutter on the southeasterly side, nearly the whole length of the line, needs altering so as to allow the top water to pass off without running across the road and washing away the loose gravel from the surface or stagnating in large puddles at the side and keeping the road soft a considerable portion of the year. There are three dangerous places in the road—one near the avenue of Augustus Aspinwall, another near the easterly side of Beacon street, and the other the westerly side of Beacon street.

The committee are of the opinion that all the alterations required to be made come under the authority of the Selectmen as Surveyors of Highways, but in order that no question shall arise in relation to the authority of the Surveyors of Highways to grade and make safe said street for public travel, they recommend the adoption of the accompanying vote.

They also recommend that the plan of Washington street herewith submitted, be filed in the office of the Town Clerk, as a part of this report, and that the Board of Selectmen be authorized and directed to lay out and alter said street in accordance with the red lines thereon, so that the street in no place shall be of a less width than fifty feet from School street to the Brighton line, and that whenever the present walls, fences or other obstructions, or any part thereof, are removed from the street so laid out and altered, the street shall be widened so as to conform to the red lines on said plan as far as such removal shall be made.

OTIS WITHINGTON,
THOMAS GRIGGS,
SAMUEL A. ROBINSON,
CHARLES STEARNS,
A. B. SHEDD,

Committee on Tenth Article.

The following is the vote referred to in the foregoing report, viz. :

Voted, That the Surveyors of Highways be authorized and directed to cause the grade of Washington street to be altered between two gateways of Thomas Griggs, opposite the driveway of Augustus Aspinwall, by filling near each gateway, raising the lower side of the street and the sidewalk adjoining, and reducing the crown of the avenue of Mr. Aspinwall, or in such other manner as they shall think best to make the same safe for public travel, and that the sum of three hundred dollars be and the same hereby is appropriated to defray the expense of the same.

On motion of Wm. Aspinwall, the foregoing was amended as follows, to wit :

Voted, To strike out the following words, “and directed,” “by filling near each gateway, raising the lower side of the street and the sidewalk adjoining, and reducing the crown of the avenue of Mr. Aspinwall, or,” and the word “other.”

The vote as above amended was then passed, and is as follows, to wit :

Voted, That the Surveyors of Highways be authorized to cause the grade of Washington street to be altered between the gateways of Thomas Griggs, opposite the driveway of Augustus Aspinwall, in such manner as they shall think best to make the same safe for the public travel, and that the sum of three hundred dollars be and the same hereby is appropriated to defray the expense of the same.

Voted, That the sum of three hundred and fifty dollars be added to the appropriation for gutters and drains.

Voted, That the sum of three thousand dollars be added to the appropriation for highways.

On motion of William Aspinwall—

Voted, That the Surveyors of Highways are requested to keep their accounts in such manner as to show the amount of money expended on each street, and exhibit the same in the report of the Treasurer at the close of the year.

The various appropriations voted by the town at the annual and adjourned meeting, to be raised by taxation the present year, are as follows, to wit :

It is hoped there will be a full meeting, as questions of great importance in relation to raising the quota will be before the meeting.

PER ORDER OF THE SELECTMEN.

BROOKLINE, Mass., December 2d, 1863.

In pursuance of the foregoing notice, the citizens of Brookline met at the Town Hall, on Friday evening, December 4th, 1863, and were called to order at half-past seven o'clock, by James Bartlett, Esq., chairman of the Selectmen.

The meeting then organized by the choice of Ginery Twichell, Esq., for chairman, and B. F. Baker for secretary.

Mr. Twichell, on taking the chair, read the call for the meeting and made a brief address on the importance of the business before them, and the need of vigorous, energetic and persistent action, and that now was the time for active work in the cause of our country.

James Bartlett, Esq., chairman of the Selectmen, stated that as there had been some doubts expressed about the legality of the vote passed at the special town meeting held on the 27th day of November last, whereby the town voted money to pay the expenses of enlisting the town's quota, and that the Selectmen desire to know if the town would sustain them in their efforts in proceeding to fill the town's quota of men.

Thomas Parsons, Esq., said that we did not know whether it was legal to put down the rebellion or not, but for his part he thought it best to get the men and do all we can to fight it out, legal or no.

The meeting was addressed in a spirited and stirring manner by Wm. S. Spencer, J. Murray Howe, Col. Griswold of the 56th Regiment, M. B. Williams, and others, upon the importance of united and patriotic efforts to procure men, and subdue the rebellion and establish the government.

Resolved, That the citizens of Brookline pledge themselves to sustain the Selectmen in using the money appropriated by the town at the meeting held on the 27th day of November, 1863, for filling the quota of volunteers required of the town under the last call of the President, whether such use be in strict conformity with the law or not.

Resolved, That a committee be appointed to procure subscriptions from the citizens of this town to indemnify the Selectmen and Town Treasurer against any loss incurred by them, or either of them, in filling the present quota of volunteers required of this town, -or raising money for the same.

Voted, That the Town Clerk enter the proceedings of this meeting in the records of the town.

A subscription list of a guarantee fund was then opened, and the sum of nine thousand dollars was obtained in a few minutes.

The Brookline brass band was in attendance during the evening, and enlivened the meeting with their music.

Voted, To adjourn to meet at the same place one week from this evening, at half-past seven of the clock.

ADJOURNED CITIZENS' MEETING, DEC. 11, 1863.

Pursuant to adjournment, the citizens of the town assembled in the Town Hall at quarter before eight of the clock, the president, Ginery Twichell, Esq., in the chair.

The meeting was large and the hall was crowded to its utmost capacity. The band was in attendance and added to the enthusiasm by their stirring and patriotic airs.

James Bartlett, Esq., chairman of the Selectmen, stated to the meeting that they had enlisted twenty-seven men since the last meeting, which were enrolled on the town's quota.

After music by the band, and singing of national songs by several gentlemen, the president introduced to the meeting the Hon. Thomas Russell, who addressed the meeting at length upon the importance of prosecuting with vigor the war to put down the present rebellion and restore the enforcement of law and order through all the Union, and that we must follow the flag and keep step to the music of the Union, and that this is a battle for right the world over. The speaker was eloquent and earnest, and was listened to with attention throughout.

The meeting was addressed by several gentlemen, all urging a vigorous and energetic action to enlist men and fill up the regiments now in the field.

Two young men came forward and signed the roll to enlist into the army—William Gallagher and John McClellan.

On motion of Marshal Stearns, Esq., the meeting passed a vote of thanks to the speaker.

The committee appointed to take into consideration the Sixth and Seventh Articles in the warrant and report thereon at the adjourned meeting, presented the following report, viz. :

REPORT.

The undersigned, who were appointed at the annual town meeting of the inhabitants of the town of Brookline a committee to examine into the matter referred to in the sixth and seventh articles in the warrant, and to recommend to the town what action seemed to them judicious, report that there is an evident need of a primary school at Longwood, and that very soon this section will also require a grammar school; that they endeavored to find a suitable lot that could be purchased that would answer for both schools, as this seemed to them the best course for the town, but in the short time allowed them they did not succeed in finding a lot that they could unanimously agree upon. The most desirable and available one was a lot of about 10,000 feet, on Monmouth street, which was offered to the town free, by Mr. Sears, to be used strictly for school purposes. As regards this lot, some of your committee were in doubt as to whether it was large enough and in the right location to warrant the building of both a primary and grammar school, but they unanimously agree that if no other lot can be obtained, that the gift be accepted, and a primary school be erected, the cost of which they estimate at \$4,000; and if a desirable lot for both could be obtained, they estimate it would cost to buy the lot and increased size of the building, in addition to the above amount, the sum of \$6,000—making for both schools, \$10,000; and they recommend that the whole matter be referred, with full powers, to the Selectmen, and the passing of the following votes:

Voted, That the Sixth Article in the warrant be referred to the Selectmen, with authority to purchase a lot of land and to erect a primary school-house thereon at Longwood.

Voted. That an appropriation of four thousand dollars be made for the above purposes.

Voted. That if the Selectmen deem it expedient to purchase a lot of land with a view to the establishment of a grammar school at Longwood at some future time and to erect the building now contemplated for a primary school, with a view to its future enlargement, that they be authorized to do so, and that the sum of six thousand dollars be appropriated for that purpose.

Voted. That the Treasurer be authorized to borrow said sum of ten thousand dollars, or such part thereof as may be called for by the Selectmen, upon such terms and conditions as they may prescribe.

In regard to the seventh section of the warrant, your committee find the school-house on Newton street is large enough, but that it is badly located and low-studded, and they would recommend that a new lot of land be purchased in this neighborhood, and, if found practicable and economical, that this school-house be moved on to it, and raised up by a brick underpinning; and if not found both practicable and economical, that a new school-house be built, and with these views, they recommend the passage of the following vote:

Voted. That the seventh section be referred to the Selectmen, with full power to buy another lot of land and to move the present school-house onto it, and to make in it such improvements as they may deem best, or to build a new school-house, as may seem to them most judicious, and to enable them to do so that this meeting appropriate the sum of three thousand dollars (\$3,000), of which appropriation one thousand five hundred dollars (\$1,500) shall be assessed during the present year for the purpose of purchasing a lot and moving the present building; and the remainder shall be borrowed by the Treasurer, under the direction of the Selectmen, in case they shall find it expedient to erect a new school-house.

Respectfully submitted,

CHARLES U. COTTING,
EDWARD ATKINSON,
JOHN N. CHAPMAN,
JOHN K. ROGERS.

Voted. To accept and allow the foregoing report.

The Selectmen, to whom was referred the Tenth Article in the warrant, in relation to purchasing a steam fire-engine, presented the following report, to wit:

REPORT.

The Selectmen, to whom was referred the Tenth Article in the warrant for the town meeting, held March 21st, 1864, "To consider the subject of purchasing a steam fire-engine," have attended to that duty, and respectfully report that after due consideration and investigation of the subject, in their opinion it is inexpedient to purchase at present, owing to the scarcity of accommodations for obtaining a supply of water therefor, and that the present wants of the town do not require an outlay of money for that purpose.

JAMES BARTLETT,
MARSHAL STEARNS,
THOMAS PARSONS,

ADJOURNED ANNUAL MEETING, APRIL 4, 1866.

Pursuant to adjournment, the citizens of the town of Brookline assembled at the Town Hall in said town on Wednesday, the fourth day of April, in the year of our Lord eighteen hundred and sixty-six, and were called to order at a quarter to eight of the clock in the evening, the Moderator, George F. Homer, Esq., in the chair.

The meeting then proceeded to fill the vacancies in the various offices caused by the non-qualification or non-acceptance of those chosen at the last annual town meeting, viz. :

Voted, That so much of the vote passed at the last annual town meeting, whereby the town voted to have thirteen Constables for the ensuing year, be and hereby is reconsidered, and that the number chosen and qualified (twelve) be the number for the ensuing year.

The meeting then nominated and chose the following officers, to fill vacancies, to wit :

Surveyor of Lumber and Measurer of Wood and Bark : Oliver Cousens.

Field Driver : George R. Phelps.

Fire Ward : Moses Jones.

The Selectmen, to whom was referred the Fifth Article in the warrant, viz. : "To see what action the town will take in relation to making and grading Boylston street," made the following report, to wit :

REPORT.

The Selectmen, to whom was referred the Fifth and Seventh Articles of the warrant at the town meeting, on March 19th, 1866, would report as follows, viz. :

First, as to the Fifth Article, viz. : "To see what action the town will take in relation to making and grading Boylston street."

A petition having been presented by a large number of our citizens, praying for the occupation and grading of a portion of the width of Boylston street, which was included in the location of said street but has not heretofore been occupied or graded, between Cypress street and the west line of the estate of Benjamin Goddard, the Selectmen viewed and examined the premises. The improvement asked for by the petitioners contemplates widening the north side of the cutting on the top of the hill for about four hundred and fifty (450) feet, and the north side of

the causeway, across the Benjamin Goddard estate. A cursory examination and rough estimate was made of the cost of this widening, which we place at four thousand dollars, in round numbers. If, however, we at the same time lower the grade of the street on the top of the hill some eight feet, which would be very desirable, the bank walls on the south side of the street, through the cutting, would all be undermined, and if those heavy walls are to be rebuilt, it would seem desirable to rebuild them on the true line of the street, about eight feet back of their present position, and to thus occupy the whole width to which we are entitled by the record, from Cypress street all the way to the corner of Walnut street, near the reservoir. If all this should be done, a further outlay of some twelve thousand dollars would be incurred for grading and walls. This is in our opinion a larger outlay than the present exigencies require, and we therefore do not now recommend it. The change upon the north side is more evidently needed, but even this we do not regard of such consequence as to induce us to urge its execution during the present high prices of labor and the large debt of the town, both of which we hope may be abated before the present state of things becomes a very serious inconvenience to the public.

The Seventh Article, which was also referred to the Selectmen, to wit: "To see what action the town will take in relation to effecting a better drainage of the brook which crosses the Mill Dam road, near the gas-works," reported thereon, in connection with the Fifth Article, as follows, to wit:

The large amount of water brought down by the brook at times, renders it essential to the health of that part of the town lying between the railroad station and the Mill Dam road that a more direct and unincumbered channel should be provided than now existing, the present channel being crowded and obstructed at many points by private structures, over which the town have no control.

If the town should accept the statute provided for building public sewers, etc., we would suggest that this part of the brook be laid out as a common sewer, under that statute, and that it be confined by substantial walls. This would incur an outlay of some five thousand dollars, which should be appropriated for that purpose, in case the town approve of this suggestion.

JAMES BARTLETT,
MARSHAL STEARNS,
WILLIAM J. GRIGGS,
EDWARD S. PHILBRICK,

BROOKLINE, April 4th, 1866.

Selectmen of the Town of Brookline.

Voted, That the sum of five thousand dollars be raised and appropriated for the purposes set forth in the foregoing report on the Seventh Article, and placed at the disposal of the Selectmen, provided the third, fourth, fifth and sixth sections of Chapter 26 of the General Statutes are adopted by the town at a special meeting to be held the present instant.

The Selectmen, to whom was referred the subject of the Eighth Article, "To see if the town will locate and make a reservoir at the junction of Harvard and Beacon streets," reported verbally that the subject be indefinitely postponed.

Voted, That the Eighth Article be indefinitely postponed.

Thomas Parsons, Esq., chairman of the board of Trustees of the Public Library, stated that in conformity with the vote passed at the annual meeting, the Trustees had advertised for sketches of plans for the Public Library building, and also for approximate estimates of the cost of the same, and that he had given the same statement in writing to all who had applied to him for information on the subject; also that, inasmuch as the town also voted that the Trustees proceed and procure plans and erect or cause to be erected a building for a Free Public Library, and in view of the present high prices of materials and labor, he would offer the following vote, to wit:

Voted, That the Trustees of the Public Library are hereby directed not to proceed during the present season to erect a new Public Library building in case they find that a suitable building cannot be erected for the sum of twenty thousand dollars appropriated by the town, and such additional sums, if any, as may be contributed for that purpose.

Voted (unanimously), To adopt the foregoing vote.

James Murray Howe, Esq., moved the reconsideration of the vote passed at the annual meeting whereby the town voted to purchase a lot for a Public Library building, to wit:

Voted, That the town purchase the lot of land on the corner of Cypress street and Cypress place, belonging to Mrs. W. G. Appleton, for the use of a Public Library, at a price not exceeding twenty cents per foot, and the sum of thirty-seven hundred dollars (\$3,700) is hereby appropriated for said purpose, which sum shall be raised by taxation.

After discussing the subject very fully, and bringing the various reasons for and against the measure, the Moderator put the question, the meeting voting thereon by a hand vote, with the following result, to wit:

In the affirmative (that is, for reconsideration,) fifty-three.

In the negative (that is, not for reconsideration,) one hundred and twenty-one.

Adjourned.

Attest: B. F. BAKER,

Town Clerk.

First Article, to choose a Moderator, taken up.

The meeting then nominated and chose for Moderator James Murray Howe, and he took the chair.

Second Article taken up :

To see if the town will accept sections three, four, five and six of Chapter forty-eight of the General Statutes.

The above-named sections of Chapter forty-eight of the General Statutes were then read, and are as follows, to wit :

SECTION 3. In any city or town in which Chapter 115 of the Statutes of eighteen hundred and forty-one has been accepted according to the provisions of that Act, and in any city in which this and the three following sections of this chapter have been accepted by the City Council, and in any town in which the same have been accepted by the legal voters at a meeting called for that purpose, the Mayor and Aldermen of the city and the Selectmen of the town may lay, make and repair all main drains or common sewers, and all the main drains or common sewers shall be the property of such city or town.

SECTION 6. A person aggrieved by such assessment may at any time within three months from receiving notice thereof, apply for a jury; such application shall be made in like manner and the proceedings thereon shall be the same as in cases of land taken for laying out of highways, provided that before making his application the party shall give one month's notice in writing to the Selectmen or Mayor and Aldermen of his intention so to apply, and shall therein particularly specify his objections to the assessments made by them, to which specifications he shall be confined upon hearing by the jury.

Third Article :

To see what action the town will take in relation to the report of the Selectmen on the petition of Thomas Howe and others for an improvement on Washington street.

The Selectmen presented the following statement for the consideration of the meeting, to wit :

STATEMENT.

Whereas, the Selectmen having received a petition from Thomas Howe and others praying for the laying out of an extra width of Washington street between Davis court and Washington place; and whereas, in our opinion said street would be rendered much more serviceable to the public by a widening on this and adjoining estates; and whereas, the present time seems to present a good opportunity for securing said improvement in part; we would therefore recommend the purchase of three hundred and twenty-five square feet of land between Davis court and Washington place for the purpose of widening Washington street, provided it can be purchased for two hundred dollars (\$200); said three hundred and twenty-five feet to be laid out as and for a public highway as the Selectmen may indicate; and we further recommend an appropriation of the sum of two hundred dollars for said purchase.

Pursuant to adjournment, the citizens of the town of Brookline assembled at the Town Hall in said town, on Wednesday, the third day of April, in the year of our Lord one thousand eight hundred and sixty-seven, and were called to order at seven and one-half of the clock in the evening, the Moderator, William I. Bowditch, in the chair.

The meeting then proceeded to fill the vacancies in the various offices, occasioned by the non-acceptance or non-qualification of persons chosen at the annual meeting.

The polls were declared open for the reception of votes

for one Assessor to serve for the ensuing year, and after giving all desiring an opportunity to vote, they were declared closed.

The whole number of votes given in for Assessor was one hundred and twenty-seven, and were as follows :

A. W. Goddard, seventeen.

Marshal Stearns, forty-eight.

William B. Towne, sixty-two, and he was declared elected, and was sworn by the Moderator.

The polls were then opened for the reception of votes for one Fence Viewer, and after giving all an opportunity to vote, were closed, and the whole number of votes given in for Fence Viewer was six, and were as follows :

William K. Melcher had six, and was declared elected, and was sworn by the Moderator.

Voted, That the number of Truant Officers for the ensuing year be two, the number already chosen and qualified.

Voted, That the number of Field Drivers for the ensuing year be five, the number already qualified.

The meeting then nominated and chose the following officers :

Surveyors of Lumber and Measurers of Wood and Bark : Oliver Cousens, Wm. D. Coolidge (sworn by the Moderator), M. W. Quinlan.

Fire Wards : George H. Stone (accepted), Henry M. Hall (accepted).

The Selectmen, to whom was referred the subject of the Seventh Article, to wit :

To see if the town will locate and make a reservoir at the junction of Harvard and Beacon streets,

—reported in favor of making said reservoir, and that the sum of one thousand and three hundred dollars be appropriated therefor.

Voted, That the sum of one thousand three hundred dollars be raised and appropriated to make a reservoir at the junction of Harvard and Beacon streets.

The committee to whom was referred the subject of procuring a lot and erecting a school-house in the South Primary District, submitted the following report, to wit :

REPORT.

The committee who were appointed by the town on the 18th of March, 1867, for enquiring what land could be obtained on which to build a school-house for the South Primary school, beg to report that they find two lots for sale conveniently situated for said school, as follows, viz. :

A lot on the south side of Walnut street and west side of Sewall street so called, containing upwards of four acres, offered at seven cents per foot, amounting to about \$13,200. Also a lot on the south side of Boylston street, a few rods west of Cypress street, offered at six cents per foot. The lot on Walnut street offers an eligible site for a school-house, but is much larger than needful for that purpose. The lot on Boylston street is considerably below the level of the road, requiring an expensive foundation to bring the building up to the level of the road, perhaps costing for foundation one thousand dollars more than on the other lot. The town can have the privilege of buying more or less land here as they may require at the above rate.

Other land on the east side of Cypress street, between Walnut and Boylston streets, is for sale, but no price can be got till a committee shall have authority to buy.

The committee recommend that the subject be referred to the Selectmen with authority to call a town meeting to act upon the subject when they see fit.

All of which is respectfully submitted.

EDWARD S. PHILBRICK.

THOMAS PARSONS.

BROOKLINE, April 3d, 1867.

E. C. CABOT.

Voted, To accept the report of the committee.

Voted, To refer the subject of a school-house and lot in the South Primary District to the Selectmen, to report thereon at a future meeting.

Voted, To appropriate the sum of one thousand dollars for the increase and maintenance of the Public Library.

Mr. Edward Atkinson, for the committee to whom was referred the subject of adding accommodations to the present Town Hall for the purpose of a reading-room and to accommodate the present wants of the library, reported for the minority of said committee (verbally) :

That the Town Hall and Library should remain where they now are, and that suitable accommodations be provided either by an addition to the present building or by the erection of a new building; that he (Mr. Atkinson) and Mr. Abijah W. Goddard prefer an addition to the present building, but that Messrs. Lawrence, Cotting and Spencer think that a suitable library building should be erected for a Public Library and

reading-room, qualifying their approval by the opinion that the town should not expend over twenty thousand dollars thereon; any remainder of the expense, should it be greater, to be raised by private subscription.

In support of and furtherance of his ideas on the subject, he presented the following votes for the consideration and action of the meeting, to wit:

Voted, That the Selectmen be authorized and instructed to provide additional accommodations for the library and for a reading-room, and also for an enlargement of the Town Hall by causing an addition to be made substantially in accordance with the plan herewith submitted, such plan providing for building a section about 25x42 feet in the centre of said building, the rear end of the building to be moved back.

Voted, That the sum of six thousand dollars be appropriated for such purpose, and that the Treasurer be authorized to borrow said sum upon the note of the town, approved by the Selectmen, for a term not exceeding one year.

Voted, That if upon a closer examination of the Town Hall building the Selectmen shall consider the above proposed enlargement to be unwise, that before proceeding they shall be authorized to call a special meeting to see if the town will take any action in regard to the erection of a new Town Hall and Library building upon the present location.

The foregoing votes were then separately acted upon by the meeting, and rejected.

Mr. Thomas Parsons, for the Trustees of the Public Library, presented a printed report of the Trustees, which had been distributed through the town prior to the meeting, and offered the following votes, to wit:

1st. *Voted*, That the board of Trustees of the Public Library are hereby authorized and directed to erect a building for a Free Public Library on the library lot on the corner of Cypress street and Cypress place, purchased by the vote of the town, March 19th, 1866, agreeable to the plans submitted in the report of said Trustees.

2d. *Voted*, That the sum of thirty-six thousand dollars (\$36,000) be appropriated for the erection of said Public Library building, and the Town Treasurer is hereby directed to pay all bills for the same approved by said board.

3d. *Voted*, That the Town Treasurer is hereby authorized to borrow, under the direction of the Selectmen, and give the note of the town for such part or all of said sum of thirty-six thousand dollars (\$36,000), and at such time or times as may be desired by said Trustees.

The foregoing votes were amended by incorporating the first and second votes, as follows, to wit:

Voted, That the board of Trustees of the Public Library are hereby authorized and directed to erect a building for a Free Public Library on

the lot of land corner of Cypress street and Cypress place, purchased by vote of the town, March 19th, 1866, said building not exceeding in cost to the town the sum of thirty-six thousand dollars.

The meeting then proceeded to vote on the foregoing vote by a Yea and Nay ballot. The whole number of votes two hundred and fifteen :

Yea, sixty-four (64).

Nay, one hundred and fifty-one (151).

On motion of Gen. James S. Whitney, it was—

Voted, That a committee of seven be appointed by the chair (to report at a future meeting) to examine other sites for a library building, and to receive subscriptions for the several lots; also, to procure plans for a building to be erected upon the Town Hall lot, either with or without a Town Hall connected, and that the sum of five hundred dollars be appropriated therefor.

The Moderator appointed the following-named gentlemen to constitute said committee, to wit: Gen. James S. Whitney, Edward Atkinson, John C. Abbott, William Aspinwall, Charles Dwight, Amos A. Lawrence, and John E. Horr, committee on site for library and plans for a building.

On motion of Wm. S. Spencer, it was—

Voted (unanimously), That the building for a new library be erected on the present Town Hall lot.

Voted, That the sum of five hundred dollars be added to the appropriation for contingencies to pay for the plans already procured by the Trustees.

Voted, That the various appropriations made by the town, including those for the purpose of making and repairing highways and townways, be assessed, after deducting the amount in the treasury and the probable receipts for the ensuing year, amounting to the sum of ——— dollars, upon the polls and estates, real and personal, of the inhabitants, resident and non-resident, of the town, and collected as the town charges are usually charged and collected.

Adjourned.

BROOKLINE, November 30th, 1867.

By virtue of the within warrant, I have notified and warned the legal voters of the town of Brookline to meet at the time and place and for the purposes within named, by leaving a printed copy of the same at their last and usual place of residence, four days at least before the day of said meeting.

JOHN H. GRUSH,
Constable.

In pursuance of the foregoing warrant, the citizens of the town of Brookline met at the Town Hall in said town, on Thursday, the fifth day of December, A. D. 1867, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling the meeting and the return of the Constable notifying the same thereon, and presided during the choice of a Moderator, under the call of the first article in said warrant.

The meeting nominated and chose for Moderator William I. Bowditch, and he took the chair.

The Second Article taken up, to wit :

To hear and act upon the report of the committee on lots and plans for a library building.

General James S. Whitney, chairman of said committee, presented the following report, viz. :

REPORT.

The committee appointed at a town meeting held at the Town Hall on the 3d day of April, 1867, to examine sites upon which to erect a building for the Town Library, have attended to the duty assigned them, and ask leave to submit the following report:

Your committee, acting upon the intimation given them at the time of their appointment, first considered the question of building in connection with a Town Hall; after careful examination of this matter the committee decided almost, if not quite, unanimously that it would be unwise to attempt to combine a Public Library with the Town Hall in one building. The committee, in the exercise of their judgment, being forced to abandon the idea of one building for the Town Hall and the Library, proceeded to act in reference to a location and plans for a suitable independent building.

Through our sub-committee we addressed to those of our citizens who were supposed to feel a special interest in the Library question the following circular:

BROOKLINE, 19 April, 1867.

Sir,—The undersigned have been appointed a sub-committee to ascertain what suitable sites may be proposed for the erection of a Public Library, and what sums of money may be subscribed by individuals towards the purchase of the several sites or the erection of a building thereon.

There are at present only four sites proposed for the Library, viz.:

1. The lot now occupied by the Town House.
2. The lot on Prospect street, southwest of the Pierce school-house.
3. The lot on the corner of Cypress street and Cypress place.
4. The lot bounded by Harvard avenue, Harvard street and Auburn street.

Will you oblige us by answering the following questions:

How much will you subscribe towards the erection of a Library building on either of the above-named lots?

What other lot would you suggest as suitable for the building?

How much would you subscribe towards the purchase of the lot you suggest or the erection of the building thereon?

An early answer, addressed to either of the undersigned, will oblige.

WILLIAM ASPINWALL.
JOHN E. HERR.
CHARLES DWIGHT.

To this circular the committee received several answers covering suggestions, and expressing preferences as to different sites, and propositions of liberal subscriptions in aid of the purchase of their several favorite sites were also received from several gentlemen. Your committee, in view of these propositions and the probability of securing their aid, should the town adopt any of the sites named, conferred personally as individuals with many of our citizens in relation to the different sites proposed. The investigation thus made forced your committee to the conclusion that there was a very general concurrence of opinion in favor of the location which the committee had agreed by a unanimous vote to recommend conditionally to the town. The committee therefore recommend to the town to purchase about 25,000 feet of land adjoining the lands of the town west and north of Prospect street agreeable to a plan and at prices herewith submitted. Such land being obtained, we recom-

mend to the town to erect a suitable Library building upon the land now owned by the town, known as the "Fay lot."

The committee, in further pursuance of their duty, have, through their sub-committee, obtained plans from several architects, which plans are now in the hands of the committee, subject to the orders of the town. In reference to those plans, the committee have to remark that they deemed a more careful estimate of the cost of two or more of the proposed buildings requisite, before an absolute decision would be reached so as to establish fairly the preferences of your committee for any one plan.

In order that definite action may now be taken by the town upon this matter, your committee ask leave to submit, for the action of this meeting after this report is disposed of, certain votes in pursuance of the object for which they were appointed. All of which is respectfully submitted.

JAMES S. WHITNEY.
JOHN C. ABBOTT.
EDWARD ATKINSON.
WILLIAM ASPINWALL.
JOHN E. HERR.
AMOS A. LAWRENCE.
CHARLES DWIGHT.

The sub-committee for procuring plans for a Public Library in Brookline submit to the town—

1st. A plan made by Messrs. Ware & Van-Brunt, estimated to cost \$26,000.

2d. The plan made by L. Weissban for the Cypress street lot, with a new elevation, in brick and free-stone, which may be perhaps more suitable for the position now contemplated.

The estimates of the cost of this building is \$23,900, at which price Mr. Weissban assures me that responsible men will take the contract.

Respectfully submitted.

EDWARD ATKINSON,
Chairman of Sub-committee.

BROOKLINE, December 5, 1867.

Voted, To accept the foregoing report.

Third Article taken up :

To raise and appropriate such sums of money as may be necessary to carry out the foregoing objects.

On motion of Hon. William Aspinwall, it was—

Voted, That the town purchase from Messrs. John Gibbs, George S. Cushing, and Collins and Chase, so much of their several lots of land as are indicated, as nearly as practicable,

upon the plans referred to in the report of the special committee on the subject of a library building, and the Selectmen are hereby instructed to carry this vote into effect.

Voted, That the sum of seven thousand dollars be appropriated for the purchase of the land specified in the foregoing vote, and that the Treasurer be authorized to borrow said sum, under the direction of the Selectmen, giving the notes of the town therefor for such amounts and on such time as may be for the interests of the town.

Voted, That the sum of thirty thousand dollars be appropriated for the purpose of erecting a suitable building for a Free Public Library upon the land recommended therefor by the special committee on the subject of a library building, and that the Treasurer be authorized to borrow said sum, under the direction of the Selectmen, by giving the notes of the town therefor for such amounts and on such time as may be for the interests of the town.

Voted, That the Board of Trustees of the Public Library are hereby authorized and directed to procure plans for and cause to be erected a suitable building for a Free Public Library on the land recommended by the special committee on the subject, and the Town Treasurer is hereby directed to pay all bills for the sums approved by said board.

On motion of Benjamin B. Davis, Esq., it was—

Voted, That the Trustees of the Public Library are requested to cause to be erected or placed in the walls of the reading-room a marble tablet commemorative of the names of those of our soldiers who lost their lives in the War of the Rebellion.

Adjourned.

Attest: B. F. BAKER,
 Town Clerk.

The Selectmen of the Town of Brookline, after giving legal notice to all owners of lands, persons and corporations interested therein known to them, of their intention to lay out as townways so much of the Mill Dam road and the roads and bridges connected therewith in toll franchise as lay within the limits of the town of Brookline, did, in pursuance of said notice, meet at the Town Hall in said town, on Thursday, the fifth day of November, in the year of our Lord eighteen hundred and sixty-eight, at two of the clock in the afternoon, and all parties, interests and corporations having been given an opportunity to be heard, and none appearing against or opposing the laying out of said ways, they proceeded to locate and lay out said ways as follows, to wit :

Boston and Brookline on the marshes ; thence beginning at the next intersection of said town and city line at a distance of six thousand five hundred and sixty-one feet from the center line of said main dam and running of the same width as above to the corner of Washington street in Brookline, distance seven thousand eight hundred and forty-one feet from said centre line of Main Dam, excepting such short portions of the same as may lie within the limits of Boston as shown on said maps.

The location of said ways are in accordance with plans and profiles of the same as made by J. B. Henck, civil engineer, and dated October 2d, 1868, accepted and allowed by the Selectmen, and filed and recorded in the office of the Town Clerk on the fifth day of November, A. D. 1868.

The said ways being laid out and located under the authority of Chapter 291 of the Acts of the Legislature of 1868, no awards are made for damages, nor are fences, trees, or walls to be removed from the same ; and the said ways are to be entered upon at once by the town ; and said ways so laid out, located and described are hereby reported to the town for their acceptance, and when so accepted, allowed and recorded, are forever to be known as public townways.

And the Selectmen would recommend that the said roads or ways be designated as follows, viz. :

REPORT.

LAYING OUT AVON STREET AS A TOWNWAY.

The Selectmen of the town of Brookline, after giving legal notice to all persons, interests, and corporations known to them, of their intention to lay out as a townway the private way known as Avon street, leading from Goddard avenue to the town line dividing the towns of Brookline and West Roxbury, did, in pursuance of said notice, meet at the junction of said Avon street and Goddard avenue, on Wednesday, the twenty-second day of July, eighteen hundred and sixty-eight, and again, by adjournment, at their office in the Town Hall, on Thursday, the nineteenth day of October of the year above written, and all parties and interests having been heard and examined in relation thereto, they having at their previous meeting examined said route, they proceeded to lay out said way as a townway, to be known as Avon street, as follows, describing the same by its southeasterly, easterly, and northeasterly lines, said street being forty feet wide, measured northwesterly, westerly, and southwesterly, from the described lines, to wit :

Commencing at the westerly end of Goddard avenue at the bound P in the location of Goddard avenue, in 1864, and also marked P on the plan of Avon street, thence running five hundred forty-five feet six inches (545.6) to a bound marked Q; thence running southerly by a curved line forty feet radius sixty-two feet (62) to a bound marked R; thence running southeasterly seven hundred and seventeen feet (717) to a bound marked S; thence southeasterly one hundred and ninety-nine feet (199) to a bound marked T at the town line between Brookline and West Roxbury.

The location of said way is in accordance with a plan and profile of the same as made by Amos R. Binney, surveyor, dated October the 10th.

1868, and filed and recorded in the office of the Town Clerk, October 19th, 1868, and accepted and allowed by the Selectmen the same day.

In consideration of the benefit to the abutters on said way, no damages by reason of the laying out have been awarded by the Selectmen.

There being no fences, trees or walls to move from said way, the same can be entered upon by the town at once. And said way, so laid out and located and described, is hereby reported to the town for their acceptance; and when so accepted, allowed and recorded, is forever to be known as a public townway by the name of Avon street.

Eighth Article taken up :

To see what action the town will take in relation to sewerage.

The following resolution was adopted, to wit :

Whereas, it appears that the sewerage lately constructed around the Chestnut Hill reservoir affords a new and rapid drainage for the surface-water of the surrounding slopes, thereby throwing greater quantities of water, at certain times, into the brook passing through this village than has ever

occurred before, causing considerable damage to both public and private property along the line of this brook, and threatening further damage; and, whereas, the town of Brookline considers that any change of the natural drainage of this kind effected by the city of Boston for its own purposes should be so made as to hold harmless the property of this town and its citizens, the Selectmen and Mr. Edward S. Philbrick are hereby appointed a committee and instructed to ascertain, and report at an adjournment of this meeting, what course the city of Boston intend to pursue in the matter, and to recommend what action should then be taken by this town.

Voted, That the whole subject of sewerage be referred to the same committee, to report at a future meeting.

Ninth Article taken up :

SECTION 7. In cities in which the city council, and in towns in which the inhabitants have adopted the provisions of this and the following section, the mayor and aldermen or selectmen may establish and grade sidewalks in such streets as in their judgment the public convenience may require, and may assess the abutters on such sidewalks one-half the expense of the same, the residue being paid by such city or town. All assessments so made shall be a lien upon the abutting lands in the same manner as taxes are a lien upon real estate.

SECTION 8. No sidewalk constructed or graded in a city or town shall be dug up or obstructed in any part thereof without the consent of the mayor and aldermen of the city, or of the selectmen of the town in which such sidewalk is established.

Eleventh Article taken up :

Thirteenth Article taken up :

To see what action the town will take in relation to purchasing fire extinguishers.

Referred to a committee of three, to report at the adjourned meeting, to wit: William D. Coolidge, Willard Y. Gross, and Charles D. Head, committee on fire extinguishers.

The Selectmen of the town of Brookline, after giving legal notice to all persons, interests and corporations to them known, of their intention to lay out a new townway leading from Boylston street to Newton street, did, in pursuance of said notice, meet at their office in the Town Hall, on Friday, the twelfth day of February, in the year of our Lord eighteen hundred and sixty-nine, at half-past twelve o'clock, noon, and proceeded to hear all parties interested, and to examine said route, and again by adjournment on the fifteenth day of February aforesaid, and on the first

day of March, instant, and all parties and interests having been heard and examined in relation thereto, they proceeded to lay out said way as follows, to wit:

Beginning on the southerly side of Boylston street at such a point as that the following described lines shall pass twenty-five feet westerly from the corner of McNulty's land at Boylston street, and running thence S. $26^{\circ} 34'$ E. 357 feet, crossing Heath street; thence southerly by a curve 275 feet radius turning towards the west 281 feet; thence S. $31^{\circ} 58''$ W. 221 feet; thence southerly by a curve of 275 feet radius turning towards the east 145 feet; thence S. $10^{\circ} 40'$ W. 196 feet; thence southerly by a curve of 275 feet radius turning towards the west 68 feet; thence S. 16° W. 685 feet; thence southerly by a curve of 477.5 feet radius turning towards the east 200 feet; thence S. $8^{\circ} 8'$ W. 100 feet; thence southerly by a curve of 716 feet radius turning towards the west 300 feet; thence S. 16° W. 500 feet; thence southerly by a curve of 955 feet radius turning towards the west 300 feet; thence S. 34° W. 200 feet; thence southerly by a curve of 955 feet radius turning towards the east 300 feet; thence S. 16° W. 200 feet; thence southerly by a curve of 573 feet radius turning towards the east 400 feet; thence S. 24° E. 100 feet; thence southerly by a curve of 573 feet radius turning towards the west 200 feet; thence by two curves turning in opposite directions, one of which has a radius of 147 feet turning towards the west till it becomes parallel to that part of Newton street, and the other of which has a radius of 216 feet turning towards the east till it becomes parallel to that part of Newton street.

The road is laid fifty feet wide throughout its entire length, or twenty-five feet on each side of the above described line which constitutes the center line of the road, except that so much of the street which connects Boylston street with Heath street between the lands of Jackson, deceased, and McNulty as lies outside of the above location shall constitute a part of this road as hereby laid out, and except that such small portions of land as may lie between the last two named curves and Newton street shall also form a part of the road as hereby laid out.

In consideration of the benefit derived by the abutters by the laying out and making of said way, the Selectmen have not awarded any damages therefor. The location of said way is in accordance with a plan and profile of the same as made by T. and J. Doane, civil engineers, and dated February 1st, 1869, accepted and allowed by the Selectmen, and filed in the office of the Town Clerk, March 1st, 1869.

ADJOURNED ANNUAL MEETING, APRIL 7, 1869.

Pursuant to adjournment, the citizens of the town of Brookline met at the Town Hall in said town, on Wednesday, the seventh day of April, in the year of our Lord one thousand eight hundred and sixty-nine, and were called to order at half-past seven by the clock in the evening, the Moderator, William I. Bowditch, in the chair.

The meeting then voted to lay the choice of officers to fill vacancies on the table and proceed with the other business.

Eighth Article taken up :

To see what action the town will take in relation to sewerage.

The committee to whom said article was referred, made the following report, to wit :

REPORT.

The committee to whom was referred the subject of sewerage on the twenty-second day of March last, under the Eighth Article of the warrant for this meeting, would hereby report :

First, as to the claim upon the city of Boston for providing sufficient waterway for the brook into which the sewerage around the Chestnut Hill reservoir is emptied.

Your committee conferred with the Boston Water Board, who gave them a hearing this day at noon. The vote passed by the town on the 22d ult., on the subject of this claim, was read and the facts stated in detail, substantially as follows, viz. :

That the culvert built under the Washington street railroad bridge sixteen years ago had always, during that period, carried all the waters coming down that brook until the rain on the 15th February last, when about three inches of rain fell during the day, a rainfall somewhat unusual, but by no means unprecedented. Before three o'clock P. M. the above-named culvert was overflowed and a large amount of water ran along the railroad tracks between the bridge abutments for a period of over eight hours. One of your committee measured the depth of the water at three P. M., and found it about two feet deep under the bridge, where the stream was about twenty-five feet wide, flowing very rapidly. The section of this stream would therefore be about fifty square feet with a rapid fall, while the section of the culvert above named was only about twenty-seven feet. There appeared, therefore, to be more water running over the railroad tracks than there was through the culvert, which culvert had carried all the water coming down the brook since it was built up to this time. It is well known that the circumstances on the fifteenth

of February were such as to favor rapid drainage. The ground was bare and frozen hard, admitting of no soakage; the occasion was therefore rather rare. But it is plainly proved that other or less volume will bring unprecedented quantities of water down this brook, for on the tenth day of March, after a fall of only one and one half inches of rain in Brookline during a period of about eight hours, with snow on the ground to retain it, this culvert again proved insufficient, and the water again rose and flowed over the railroad tracks for some hours. The damage done at this and other points was considerable; but this is not all. The new state of things would, if not remedied, soon lay waste a considerable amount of private property and render the highways constantly insecure. The remedy is a plain one, viz.: To increase the capacity of all the culverts between the Chestnut Hill reservoir and the new sewer below the depot, and to provide a new sewer of double the capacity of the one now just constructed between the depot and tide water. At the time this sewer was planned, Mr. J. Herbert Shedd was employed as engineer, who examined into the area to be drained into it and made elaborate calculations as to the time which would be required after a rain for the water to flow into it, and gave it as his opinion that the size, as it was since built, would be ample. This sewer will now carry nearly as much again water as the culvert under the railroad bridge, which has been enough for the last sixteen years; but both are now shown to be entirely inadequate to the present unlooked-for state of things. The question arises, whence comes the change? Your committee, after personal examination of the grounds, attribute it entirely to the new artificial system of drainage about the Chestnut Hill reservoir, and claim that in justice to the rights of the town of Brookline and its citizens, a suitable provision should be made at the expense of the city of Boston for the unequal, fitful and devastating flow of water which the works about the new reservoir have thus produced.

The difficulty is aggravated by another fact, viz., that the natural channel of this brook where it meets tide-water at the western avenue, near the works of the Brookline Gas Light Company, is obstructed, nay, almost effectually *dammed* by the forty-inch Cochituate aqueduct. The pipe is too high for the water to flow *over* it, without making a pond above, destroying a large amount of property, while its bottom is too low for the water to flow *under* it as fast as it is brought down after every considerable rain. In order to give room for the water, the channel is depressed under the pipes, but this depression is filled with silt during every period of a moderate stage of the water, occurring as it does just where the tide-water meets the flow of the brook, checking the flow every twelve hours and thereby favoring the deposit of silt in every such depression.

This point has already given trouble ever since the Cochituate pipes were laid in the Western avenue, and an attempt was made some eighteen months ago to remedy the trouble by making a new culvert of equal dimensions with the old one alongside of it. This was done by the land commissioners for the Commonwealth, who then had charge of the Western avenue, and who did this at the request of the town. The continued filling up of this depression under the pipes has limited the useful-

ness of such widening, and now that so much additional water is brought down the condition is quite unendurable. At this point, if the Cochituate pipes are to remain as they are, the only remedy seems to be to provide an adequate covered channel or sewer along the western side of the Western avenue to the point where the brook crosses back again.

But as the trouble is occasioned by the city of Boston in obstructing the natural channel with their pipes as above described, your committee think that this change should be made at the expense of the city of Boston who placed the obstructions there. After your committee had stated the above facts, with such explanations as were asked for, the chairman of the Water Board said they would take the matter into consideration, to ascertain the rights and liabilities of the city, and would confer with us again upon the subject at some future time.

Your committee were further instructed to digest a general plan for sewerage with such advice as they found necessary, but further time will be required for this purpose.

We would, however, recommend immediate action upon certain points where most required as soon as such plan can be so far developed as to act in accordance with it.

First, the changes rendered necessary by the drainage from the reservoir on Cypress street and Tappan street; we would recommend a new culvert to be made at Cypress street across said street, and another along the southerly side of Tappan street, to carry a portion of the water on the south side of said street between the points where the brook now crosses said Tappan street. As the above cannot be done within the limits of the highways without further appropriation for materials, your committee would recommend an appropriation for that purpose. There is also immediate demand for a sewer through the lower part of Washington street, and others in the lower parts of Boylston street and Walnut street. For all the above items, an appropriation of twelve thousand five hundred (\$12,500) dollars is recommended.

As some provision can be made for the water in the brook at and below the railroad bridge, other sewers will at once be wanted in Washington street and Harvard street, which at present can have no outlet. In order to provide for this, it will be necessary to lay out sewers across private property, with the required formalities as in case of laying out highways; after which, the laying out and location of such sewers must be presented to the town for acceptance at some future meeting, at which time more detailed estimates can be made and appropriations asked for.

To sum up, therefore, your committee offer the following votes, viz. :

First. That the committee already appointed for that purpose be instructed to hold further conference with the city of Boston concerning the claims of this town in regard to drainage, to take legal advice if they see fit, and report progress at a future meeting.

Second. That the sum of twelve thousand five hundred dollars be appropriated and placed at the disposal of the committee on sewers, for the purpose of draining in Tappan street, Cypress street, Walnut street, Boylston street, and Washington street, and that the Treasurer is hereby authorized to borrow not exceeding that amount, in such sum or sums and for such times as may be considered for the interests of the town, giving the notes of the town, approved by the Selectmen.

Voted, To accept and allow the foregoing report.

The meeting then proceeded to fill the vacancies existing among the various town officers, by reason of non-qualification or non-acceptance of those chosen at the annual meeting.

The polls were opened and kept open for thirty minutes for the reception of votes for one Selectman, at the close of which time the polls were closed, and the Moderator and Town Clerk proceeded to sort and count the votes given in, and the whole number so given in was one hundred and seventy-one, as follows, to wit :

For Alfred Kenrick, Jr., one.

“ Willard A. Humphrey, thirteen.

“ Amos R. Binney, seventy-six.

“ Edward S. Philbrick, eighty-one, and he was declared elected and sworn by the Moderator.

The meeting nominated and chose :

Sealer of Leather: Samuel A. Robinson (sworn by the Moderator).

Surveyors of Lumber and Measurers of Wood and Bark: William D. Coolidge (sworn by the Moderator), Frank F. Seamans.

The check-list was used during the voting for Selectman.

Seventh Article taken up :

To see what action the town will take in relation to procuring a suitable building for a hose-carriage in the village, and an additional quantity of hose.

The committee to whom was referred the Seventh Article presented the following report, to wit :

They have got the refusal for the town of a lot on Boylston street, owned by James Haley, containing two thousand one hundred and seventy square feet, at forty-five cents per square foot. Also, an estate controlled by C. M. Newell, Esq., located on the same street, for three thousand dollars, which includes the buildings upon it.

We also recommend that the town appropriate five hundred (\$500) dollars for additional hose.

All of which is respectfully submitted by

WILLIAM K. MELCHER.

F. C. SHERMAN.

M. RUSSELL.

Voted, That the matter be placed in the hands of the Selectmen.

Voted, That the sum of seven thousand dollars be raised and appropriated to procure a building for a hose-carriage house.

Eleventh Article taken up :

To change the grade and improve Beacon street between Washington street and Brighton street.

The Selectmen, to whom the article was referred, reported that they recommend no action.

Thirteenth Article taken up :

To see what action the town will take in relation to purchasing fire extinguishers.

The committee to whom was referred the Thirteenth Article, submitted the following report :

REPORT.

BROOKLINE, April 7, 1869.

The committee appointed March 22, 1869, in relation to purchasing fire extinguishers, submit the following report :

Having carefully examined into the subject of fire extinguishers, your committee recommend the purchase of 12 or more fire extinguishers, to be placed in the different school-houses and public buildings for their

protection and the use of citizens in case of fire in the neighborhood. They are highly recommended by the Boston Fire Department, and are kept in all the public buildings in Boston. The town of Brookline has at this present time only one fire engine, and that has been in use more than twenty-five years. The rapid increase of buildings in the town requires that we should be better prepared against large fires.

The town has recently built two, and are to build this year one or two more, reservoirs. These reservoirs all add greatly to our facilities for extinguishing fires, provided we have other fire apparatus to make the water available at short notice in case of fire. We have examined a steam fire engine that can be drawn by hand easier than a common hand engine, which would, in the opinion of your committee, answer the purpose of this town for some time yet to come. The cost of the steam fire engine will be three thousand dollars. This steam engine was on trial at Boston Highlands for the city of Lynn, and, as we are informed, gave entire satisfaction to the Lynn Fire Department. Messrs. Hunneman & Co. (the builders) would be pleased to give an exhibition to the citizens of Brookline at any time when they would like to see one of their steamers in operation.

We recommend the town to purchase one of these steam fire engines, or some other of like capacity, should a trial prove satisfactory to the Selectmen of the town. The committee are unanimously of the opinion that the time has fully arrived when the town of Brookline should make the outlay for their Fire Department herein recommended, and therefore respectfully suggest that an appropriation be made at this meeting for the purchase of the fire extinguishers and the one steam fire engine above referred to.

All of which is respectfully submitted.

WILLIAM D. COOLIDGE,
CHARLES D. HEAD,
WILLARD Y. GROSS,
Committee.

Voted, To accept the foregoing report.

Voted, That the sum of five hundred dollars be raised and appropriated to purchase twelve fire extinguishers, to be bought and placed in the town buildings by the Selectmen.

Seventeenth Article taken up :

To see if the town will accept and allow a new townway as laid out and located by the Selectmen, leading from Harvard to Pleasant street.

The Selectmen presented the following report on the laying out of said townway, to wit :

Attest: B. F. BAKER,
 Town Clerk.

ADJOURNED SPECIAL MEETING, AUG. 15, 1869.

Pursuant to adjournment, the citizens of the town of Brookline met at the Town Hall, on Thursday, August the fifteenth, eighteen hundred and sixty-nine, and were called to order by the Town Clerk, at half-past seven of the clock in the evening.

William I. Bowditch, Esq., who presided at the previous meeting, being absent, the meeting nominated and chose for Moderator George F. Homer, and he took the chair.

The Second Article of the warrant was then taken up :

To consider the expediency of making further appropriations for sidewalks.

The committee to whom was referred the subject of the Second Article, presented the following report, to wit:

REPORT.

The committee appointed at town meeting, July 22d, to consider the subject of sidewalks, report that they have corresponded with the Mayor of New York and citizens of other cities, and have visited the cities of Cambridge and Lawrence, Mass., and Concord, N. H. The materials which seem best adapted to the wants of this town are North River flagging, brick, coal-tar concrete, and pine-tar concrete.

The North River stone-flagging has been offered us by the Bigelow Bluestone Co., of Malden, Ulster county, N. Y., at 75c. per superficial square foot for six-inch Boston crosswalks, and 24c. per superficial square foot for sidewalks—stone two inches and upwards in thickness, three feet long, and sixteen inches and upwards in width; stones six feet or five and one-half feet by three feet and two inches in width, 30c. to 35c. Their agent agrees to deliver at Abbott's wharf, Brookline, if there is sufficient depth of water, charging perhaps the additional expense of freight from Cambridge-street bridge. These prices to hold until September 1st; after that, subject to changes in the rate of freight. The advantages of flagging are that it can be quickly laid, easily moved, and if laid in a path of three feet in width will require no curbstones, which may give it the preference in streets where a change of grade or width would prevent the use of concrete.

Brick cost the city of Boston \$1.40 per square yard, curbstones 75c. per running, and 10c. for setting. In Brookline the price is \$1.40 to \$1.45 for sidewalks, 80c. for curbstones, and 12c. to 25c. for setting. As curbstones would be needed for brick or cement, your committee think it of advantage to purchase a schooner load, or part, to be delivered at wharf in Brookline.

Coal-tar concrete, known as Schimshaw's patent, has been extensively introduced into Lawrence, Mass., and Concord, N. H. Considerable has been laid in this town this season. To all appearance, the work done here is equal to the best we have seen elsewhere. In Essex street, Lawrence, there is a broad walk leading from the railroad station through the centre of the city. For nearly the whole distance to the City Hall the Schimshaw's concrete is laid. It has been in use between three and four years, and appears to be in perfect order, being even, smooth, and hard, and without seam. Several lengths of brick walk intervene, and all are in bad order except one, which is not equal to the concrete. In Concord the concrete has been in use about eight years. Much of it looks well, and all seemed to have withstood the action of heat and cold. A piece laid eight years ago is now in as good order as when laid. The sample is too rough, but that is owing to the coarseness of the gravel used for the top layer. The testimony of some of the most prominent was in favor of the concrete. Your committee noticed that the soil of Concord is almost entirely sand and gravel, giving a fine underdrainage, and saving much trouble and expense in laying of sidewalks. This should be taken into consideration with the success of the concrete. The price of Schimshaw's coal-tar concrete in Concord, N. H., is 60c. per square yard, 3 inches thick when finished; Lawrence, Mass., 65c. per square yard, 4 inches thick when finished; New Haven, Conn., 90c.

per square yard; Brookline, 80c. per square yard, $3\frac{1}{2}$ inches thick when finished—as per statement herewith submitted by Messrs. Lynam & Co., who control the right for this county. The concrete cannot be taken up and used again.

The Burlew & Fisk patent coal-tar concrete, the right to which in this vicinity is controlled by Messrs. J. C. Stiles & Son, of Cambridge, has been offered your committee at 75c. per square yard, 3 inches thick. They have laid it in Milton, in Boston Highlands, Newton Corner, Cambridgeport, and other places in this vicinity, but all within about a year. In New York city it has been in use for two or three years, but chiefly as a street pavement. There it is laid over old stone pavement, the stones being loosened and the concrete filled in and over. In Central Park eight inches of broken stone is first laid as a bed, and the Fisk concrete laid upon that. The Mayor of New York, under date of July 29th, speaks highly of this concrete, and says it is about to be laid before the residences of Mr. Astor and Mr. A. T. Stewart, Fifth avenue, and by a recent Act of the Legislature will be the principal material used for street pavement in the future. Brooklyn, Baltimore, and other cities, have introduced it.

Before using any patent article involving so much money, the town should be satisfied that it will not be made liable for damages from infringements or other causes.

As the work in both coal and pine tar concrete is not always equally well done, the town should oversee the work and reserve the right to reject and cause the removal of all work not done satisfactorily to the town authorities.

The condition of the sidewalks of the town being so bad, your committee would urge that there be no further delay than is absolutely necessary, and recommend the immediate appropriation of eight thousand dollars, to be expended by the Selectmen in laying such walks as they shall deem best suited to the different streets, always remembering that a good sidewalk should protect from mud at all seasons of the year. Attention should be given first to the main thoroughfares leading to the centre of the village and to the railroad stations, laying it on one side of the street only, and, wherever it is practicable, on the south side of the street, that it may the better be kept free from snow and ice. A walk from Walnut street through Cypress and School streets, and Aspinwall avenue to the Episcopal Church, would render all the churches of the town accessible to the majority of the inhabitants.

Your committee recommend to the consideration of the town the appointment of a Superintendent of Streets, a surveyor, who shall act by authority and advice of the Board of Selectmen.

The expenses attending the investigations of your committee are \$19.70.

E. I. THOMAS.
JOHN C. ABBOTT.
A. W. GODDARD.
CHARLES DWIGHT.

Voted, To accept the foregoing report of the committee.

Voted, That the sum of eight thousand dollars be raised and appropriated for sidewalks, to be expended under the direction of the Selectmen.

Third Article taken up :

To see if the town will make further appropriations for grading and fencing the town's land between Washington, School, and Prospect streets, and for sidewalks on said streets adjoining said land.

The Selectmen, to whom was referred the subject of the Third Article, presented the following report, to wit :

REPORT.

The Selectmen, to whom was referred the Third Article in the warrant for this meeting, would now report that it is expedient to finish the grading on the lands adjoining the Public Library and other town buildings, at a probable cost of		\$1,200 00
To fence the town's land about Prospect and School streets and against the abutters		400 00
To provide gates, at a cost of		175 00
To provide concrete sidewalks and curbstones, where not already provided, along School, Prospect, and Washington streets, against town land, at a cost of		1,000 00
For driveways and walks about library building		500 00
Making a total of		<hr/> \$3,275 00

We therefore recommend that the sum of thirty-three hundred dollars (\$3,300) be raised and appropriated for the above purposes.

JAMES BARTLETT,
WILLIAM J. GRIGGS,
EDWARD S. PHILBRICK,
HORACE JAMES,

Selectmen of the Town of Brookline

Voted, To accept the foregoing report.

Voted, That the sum of three thousand three hundred dollars be raised and appropriated to defray the expenses recommended in the foregoing report on grading and fencing.

Eighth Article taken up :

To see if the town will accept and allow a common sewer from Aspinwall avenue to Muddy River, as laid out and located by the Selectmen.

Voted, That the Eighth Article be indefinitely postponed.

Voted, That the sum of fifty-five thousand dollars be raised and appropriated to make the sewer laid out from Tappan street to Muddy River.

Tenth Article taken up :

To raise and appropriate such sums of money as may be necessary for the foregoing objects.

Voted, That the Town Treasurer is authorized to borrow a sum not exceeding the amount of the appropriations made at this meeting, giving the note or notes of the town therefor, countersigned by the Selectmen, in such sums and at such times as may be called for by said Selectmen.

Adjourned.

GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall in said town, on Monday, the twenty-seventh instant, at seven and a half of the clock in the evening, for the following purposes, to wit :

First. To choose a Moderator.

Second. To see if the town will reconsider the vote passed by the town on the twenty-second day of July last, laying out a sewer from Tappan street to Muddy River.

Third. To see if the town will accept and allow a sewer as laid out and located by the Selectmen, from a point near the railroad bridge to an old channel near Muddy River.

Fourth. To consider and act upon the subject of repairing and lighting the roads formerly owned by the Commonwealth and recently laid out as townways, and to appropriate money therefor.

Fifth. To raise and appropriate such sums of money as may be necessary for the above purposes, also for such other sewers as may be needed in the streets.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands and seals at Brookline aforesaid, this sixteenth day of September, in the year of our Lord one thousand eight hundred and sixty-nine.

JAMES BARTLETT,

WILLIAM J. GRIGGS,

EDWARD S. PHILBRICK,

Selectmen of the Town of Brookline.

NORFOLK, SS.

BROOKLINE, September 22, 1869.

In pursuance of the within warrant, I have notified and warned the legal voters of the town of Brookline to meet at the time and place and for the purposes within named, by leaving a printed copy of the same at their last and usual place of residence, four days at least before the day of said meeting.

J. P. SANBORN,
Constable.

In pursuance of the foregoing warrant, the citizens of the town of Brookline met at the Town Hall in said town, on Monday, the twenty-seventh day of September, in the year of our Lord one thousand eight hundred and sixty-nine, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting and the officer's return thereon who notified the same.

First Article taken up:

To choose a Moderator.

Voted, To choose a Moderator by nomination.

The meeting then nominated and chose for Moderator George F. Homer, and he took the chair.

Second Article taken up :

To see if the town will reconsider the vote passed by the town on the twenty-second day of July last, laying out a sewer from Tappan street to Muddy River.

Voted, That the vote passed on the twenty-second day of July last, laying out a sewer from Tappan street to Muddy River, is hereby reconsidered.

The Selectmen presented and read the following report, to wit :

REPORT.

At the town meeting held on the 22d of July last, the town accepted a sewer as laid out by the Selectmen, leading from Tappan street to Muddy River, and at the adjournment of said meeting money was appropriated for its construction. Before commencing work upon this sewer, the Selectmen were informed of a supposed informality in the proceedings which might possibly invalidate their action, or at least lead to litigation and unnecessary expense. Moreover, considerable opposition was developed on the part of the owners of land through which said sewer was laid out, where the Selectmen were before lead to suppose they were to have the co-operation of these abutters. After considerable deliberation, your board concluded that it was inexpedient to prosecute the work in the face of such opposition, for, though such a sewer might be highly desirable if built with the co-operation of the abutters, a part of whom might justly be charged a portion of the cost, in view of the benefit to be derived therefrom, it did not seem of sufficient importance to the public to warrant the risk of litigation and extra costs, even if the alleged informality were not proved in court. Your board therefore concluded to abandon the former action and start anew.

A new hearing was called, the whole subject reviewed, and a portion of the sewer which seemed indispensable to the public welfare was relocated according to plans now submitted, making such a modification of the line as appeared desirable at its lower end. The line, as will be seen on the map, now lies principally within the location of the Boston, Hartford and Erie Railroad Company and that of the Brookline Branch of the Boston and Albany Railroad Company. The officers of the latter corporation conferred with us, and not only assented to the line of the sewer as now submitted, but cheerfully agreed to be assessed for such portion of the cost of constructing the sewer as might be decreed equitable. Your board therefore offer the following votes for the consideration of the town, viz. :

1st. *Voted*, That the vote passed by the town on the 22d day of July last, under the Seventh Article in the warrant, accepting the sewer laid out by the Selectmen, from Tappan street to Muddy River, be now reconsidered.

2d. *Voted*, That the appropriation made on the 15th day of August for the purpose of sewerage, be now applied by the Selectmen to the construction of the sewer now laid out along the railroad, and to the construction of such other sewers and in the streets as may be found necessary during the present year, in so far as such money may be needed for such purposes.

The probable cost of the sewer now laid out is estimated at \$35,000 00
The cost of other sewers needed in sundry streets will prob-

ably amount to 15,000 00

\$50,000 00

JAMES BARTLETT,
WILLIAM J. GRIGGS,
EDWARD S. PHILBRICK,

Selectmen of the Town of Brookline.

Voted, To accept the foregoing report.

Third Article taken up :

To see if the town will accept and allow a sewer as laid out and located by the Selectmen, from a point near the railroad bridge on Washington street, to an old channel near Muddy River.

The Selectmen presented the following report on the laying out of said sewer, to wit :

REPORT.

The Selectmen of the town of Brookline, after giving legal notice to all parties, corporations and interests known to them, of their intention to lay out, in whole or in part, a common sewer, leading from Tappan street to Muddy River, did, in pursuance of said notice, meet at their office in the Town Hall, on Thursday, the twenty-sixth day of August, A. D. 1869, at three of the clock in the afternoon, and after hearing all persons and interests desiring to be heard in relation to the making of said sewer, and examining the proposed route of said sewer; and again, by adjournment, on the sixteenth day of September, A. D. 1869, and all parties and interests known to them having been heard and examined, they proceeded and did lay out, in part, said common sewer, as follows, being described by the southerly line, to wit :

Beginning at a point 180 feet distant from the northwesterly corner of the southern abutment of the Washington street railroad bridge, said point being 94 feet distant from the northerly line of Boylston street, on lands of Thomas Quinlan, thence running easterly 180 feet to said corner of said abutment, crossing lands of said Thomas Quinlan, Thomas Quinlan, Jr., and M. W. Quinlan, the lands of the Boston, Hartford and Erie Railroad Company, and John H. Webber; thence in the same direction for a further distance of 500 feet to a point in the southerly boundary of

the lands of the Boston and Albany Railroad Company 23 feet southerly from the centre of the main track of the Brookline Branch railroad, crossing lands of said Boston and Albany Railroad Company and Dennis Mahoney; thence easterly along the said southern boundary 299 feet; thence curving to the left on a radius of 960 feet for a further distance of 185 feet; thence curving to the left, following the southerly line of the location of said Brookline Branch railroad, on a radius of 2,917 feet for a further distance of 674 feet; thence, still following said southerly line, curving to the left on a radius of 2,375 feet, parallel to and 55 feet distant from the centre of the track of said Brookline Branch railroad passing through Aspinwall avenue, for a further distance of 334 feet; thence still along said southerly line a further distance of 334 feet; thence still along said southerly line a further distance of 100 feet to a point distant $46\frac{1}{2}$ feet from said centre of said track; thence easterly parallel with and $46\frac{1}{2}$ feet distant from said centre of said track 454 feet; thence curving to the right on a radius of 80 feet for a distance of 60 feet to an old channel near Muddy River.

The northerly side of said sewer is parallel with and fifteen feet distant from the above-described southerly side for a distance of 680 feet from the above-named point of beginning; thence diverging to a width of 20 feet from said southerly line in a further distance of 299 feet; thence 20 feet from said southerly line to the end.

The location of said sewer is in accordance with plans of the same as made by E. S. Philbrick, civil engineer, dated September 16th, 1869, examined and approved by the Selectmen and filed in the office of the Town Clerk on the sixteenth day of September aforesaid.

The Selectmen have considered the subject of damages by the laying out of said sewer, and in consideration of the benefit to the abutters on the line of said sewer, they have made no awards for damages. And said sewer so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is forever to be known as a public sewer.

JAMES BARTLETT,
WILLIAM J. GRIGGS,
EDWARD S. PHILBRICK,

Selectmen of the Town of Brookline.

BROOKLINE, Mass., September 25th, 1869.

Voted, To accept and allow the foregoing report.

Voted, To lay the Fourth Article on the table.

Fifth Article taken up :

To raise and appropriate such sums of money as may be necessary for the above purposes, and also for such other sewers as may be needed in the streets.

Voted, That the vote passed at the adjourned meeting, held on the fifteenth day of August last, appropriating the sum of fifty-five thousand dollars for sewers, is hereby reconsidered.

Voted, That the sum of fifty thousand dollars be appropriated for the purpose of constructing the sewer now laid out along the railroad, and for the construction of such other sewers and drains in the streets as may be found necessary during the present year.

Fourth Article taken up :

To consider and act upon the subject of repairing and lighting the roads formerly owned by the Commonwealth, and recently laid out as townways, and to appropriate money therefor.

Voted, To appropriate the sum of three thousand dollars for repairing and lighting said streets.

Voted, That the Treasurer be authorized to borrow a sum not exceeding fifty-three thousand dollars, giving the note or notes of the town therefor, countersigned by the Selectmen, in such sums and at such times as may be called for by said Selectmen.

Adjourned.

Attest: B. F. BAKER,
 Town Clerk.

GENERAL ELECTION, NOVEMBER 2, 1869.

COMMONWEALTH OF MASSACHUSETTS.

The Selectmen presented the following report on laying out of said way, to wit :

REPORT.

The Selectmen of the town of Brookline, after giving legal notice to all persons, corporations and interests known to them, of their intention to lay out a townway leading from Harvard street to St. Paul street, did, in pursuance of said notice, meet at their office in the Town Hall, on Thursday, the tenth day of March, in the year of our Lord one thousand eight hundred and seventy, at four of the clock in the afternoon, and proceeded to hear all parties and interests there represented, and to examine said route, and again, by adjournment, on the nineteenth day of March of said year, and all parties and interests represented having been heard and examined in relation thereto, they proceeded to lay out said way, described by the southerly line, to wit :

Beginning on Harvard street at the northwesterly corner of land of Mortimer C. Ferris, thence running along the northerly side of lands of said Ferris and land of George W. Carnes in a straight line for a distance of seven hundred and seventy-five feet to the westerly side of St. Paul street. The northerly side of said way is everywhere parallel with and forty feet distant from the above described southerly line. The connection with Harvard street is with curves of seven feet radius as shown in said plan.

The location of said way is in accordance with a plan and profile of the same as made by Edward S. Philbrick, civil engineer, dated March 19th, A. D. 1870, and accepted and allowed by the Selectmen, and filed in the office of the Town Clerk the same day.

In consideration of the benefits to the abutters by the laying out of said way, no awards for damages have been made by the Selectmen.

And said Selectmen recommend that said way be made, graded and finished within the period of two years from the date of its acceptance and allowance by the town.

The Selectmen have given the owners of lands over which said way is so laid out eighteen months in which to remove their walls, fences, trees, buildings and structures standing on land taken for said way.

And said land, so laid out, located and described, is hereby reported to the town for their acceptance, and when so accepted, allowed and recorded, is forever to be known as a public townway by the name of Alton place.

ADJOURNED ANNUAL MEETING, APRIL 11, 1870.

Pursuant to adjournment, the citizens of the town of Brookline met at the Town Hall in said town, on Monday, the eleventh day of April, in the year of our Lord one thousand eight hundred and seventy, and were called to order at four of the clock in the afternoon, the Moderator, William I. Bowditch, in the chair.

The meeting then proceeded to elect the following officers to fill vacancies.

The Moderator then called upon the meeting to bring in their votes for one Assessor, and declared the polls open for said votes, and to be kept open fifteen minutes.

At the expiration of the time specified, the polls were declared closed, and the Moderator and Town Clerk proceeded to sort and count the votes, and the whole number of votes so given in was sixty-seven. William Aspinwall had sixty, and was declared elected, and was sworn to the duties of said office by the Moderator.

In voting the check-list was used, and no person was allowed to deposit his vote until his name had been found and checked on the list.

The meeting nominated and chose the following officers, viz. :

Truant Officer: Willard Y. Gross.

Surveyors of Lumber and Measurers of Wood and Bark: William D. Coolidge, Frank F. Seamans.

Voted, That the number of Field Drivers for the ensuing year be three, the number qualified.

Voted, That the number of Fire Wards for the ensuing year be the number who have already accepted.

The Sixth Article was then taken up :

To consider and act upon the subject of placing a memorial tablet in the library building.

Voted, To postpone the Sixth Article.

Seventh Article taken up :

To see what action the town will take in relation to erecting a new Town Hall.

The committee to whom was referred the subject of the seventh article at the last town meeting, presented the following report, to wit :—

REPORT.

The committee to whom was referred the question as to the requirements of Brookline for a new Town Hall, and the feasibility of erecting such, have attended to that duty and submit their report, as follows :

Your committee are pleased to say that, appointed as they were without previous conference or special knowledge of each other's sentiments, they found themselves a unit, upon their first meeting, in favor of the immediate erection of a tasteful, commodious and substantial edifice for this purpose, worthy of the town which claims in all its natural features no superiors in this Commonwealth. They say tasteful, feeling that the intelligence and culture of such a community as ours would not wish to transmit to others an enduring memento void of architectural beauty, and because the elevated situation recommended would admirably render it a conspicuous object in our landscape. Commodious, because the increasing demands of the town must be anticipated, and those who do not recognize such growth in matters of public policy in a community like ours, are always deficient in true economy. Substantial, because it is not the part of sound judgment for an abiding public structure of this character to be otherwise.

Your committee do not deem it wholly a question of outlay, as they feel assured that returns for rentals of such a hall would very much reduce the interest on the expenditure.

This committee are also impressed with the fact that hitherto this town has been eminently and seriously deficient in all those social advantages which it must be manifest to all would be derived from the possession of such a building, in a central and convenient position, adapted to all our needs; say, with two halls, the larger seating one thousand to twelve hundred persons, and a smaller one for concert-room and lecture-room, and seating four hundred to five hundred; and, also, with ample accommodations for such town officers as the Town Clerk, Treasurer, Magistrates, and Police, together with Lock-ups, Trial-Justice room, and wayfares, lodgings, etc., etc.

And therefore your committee unanimously recommend that the town appropriate one hundred thousand dollars for the purpose of erecting a new Town Hall upon the site of the present one, and that a committee be appointed, with full powers, to adopt plans, after public advertisement for the same, and to proceed to make contracts, and to erect such hall as soon as the present building can be removed, and also that the Town Treasurer be instructed to pay out said appropriation upon the order of not less than three members of the committee.

WILLIAM A. WELLMAN.
CHAS. U. COTTING.
JOHN C. ABBOTT.
CHAS. W. SCUDDER.
AUGUSTINE SHURTLEFF.
WILL. ASPINWALL.
WM. K. MELCHER.
WILLIAM LINCOLN.
M. P. KENNARD.

Voted, To accept and allow the foregoing report, and that the sum of one hundred thousand dollars be appropriated for the objects therein named.

On motion of John W. Candler, Esq., it was—

Voted, That William A. Wellman, John C. Abbott, Charles U. Cotting, William Aspinwall, Augustine Shurtleff, William Lincoln, William K. Melcher, Charles W. Scudder, and Martin P. Kennard, be appointed a committee to obtain plans and specifications for a new Town Hall, to make contracts to have the same built on the lot owned by the town, upon which the present Town Hall is located; that they have authority, in connection with the Treasurer of the town, to borrow one hundred thousand dollars to pay for building the same; also, that the Town Treasurer be instructed to pay out said appropriation upon the order of not less than three members of the committee.

Voted, That the building committee on the new Town Hall be authorized to move the present Town Hall onto the town's land on the westerly side of Prospect street.

Eighth Article taken up :

To consider and act upon the request of the County Commissioners to have the town bear a part of the land-damages in widening Harvard and Brighton streets.

The Selectmen, to whom was referred the subject of said article, made a verbal report, to wit :

REPORT.

That the Selectmen had conferred with the County Commissioners in relation to the widening of Harvard and Brighton streets; that the Commissioners propose to widen Harvard street to a width of fifty-five feet, and Brighton street to a width of fifty feet, and that the amount of land damages will not exceed sixteen thousand dollars; and that the Commissioners propose widening said streets if the town will pay one half of said land damages.

Voted, To accept the report of the Selectmen.

On motion of D. S. Coolidge, it was—

Voted, That the sum of ten thousand dollars be appropriated to pay land damages and make Harvard street, and that the County Commissioners pay one-half of the land damages on said street.

Voted, That the Treasurer be authorized to borrow a sum not exceeding eighteen thousand dollars to pay land damages and make Harvard and Brighton streets; the above amount to include the ten thousand dollars voted for Harvard street.

Ninth Article taken up :

To see if the town will make Beacon street to its full width across the marsh.

Voted, To indefinitely postpone the Ninth Article.

Eleventh Article taken up :

To consider what action the town will take upon the subject of a new town map.

George Griggs, Esq., chairman of the committee to whom was referred the subject of said article, reported that the committee had had several meetings upon the subject, and

had considered several ways of making said map and the costs of the same, but had not settled upon any particular plan.

Voted, To accept said report, and that the subject be recommitted to the same committee, to report at a future meeting.

Voted, That the sum of two thousand dollars be appropriated for the support of ungraded schools.

Voted, That the sum of three thousand five hundred dollars be appropriated to make and grade the road over Corey's Hill, as laid out and located by the County Commissioners.

THOMAS PARSONS,
WILLIAM J. GRIGGS,
HORACE JAMES,
CHARLES D. HEAD,
A. WHITTEMORE,

Selectmen of the Town of Brookline.

NORFOLK, SS.

BROOKLINE, June 18th, 1870.

In pursuance of the within warrant, I have notified and warned the legal voters of the town of Brookline to meet at the time and place and for the purposes within named, by leaving a printed copy of the same at their last and usual place of residence, four days at least before the day of said meeting.

J. P. SANBORN,
Constable.

In pursuance of the foregoing warrant, the citizens of the town of Brookline met at the Town Hall in said town, on Thursday, the twenty-third day of June, in the year of our Lord one thousand eight hundred and seventy, and were called to order at ten minutes past four of the clock in the afternoon, by the Town Clerk, who read the warrant calling said meeting and the officer's return thereon who served the notice of the same on the inhabitants.

First Article taken up :

To choose a Moderator.

The meeting nominated and chose for Moderator George F. Homer, and he took the chair.

Second Article taken up :

To hear and act upon the report of any town officers that may be ready.

George Griggs, Esq., for the committee to whom was referred the subject of procuring a town map, presented the following report, to wit :

REPORT.

The committee appointed at the last annual town meeting, to take into consideration and report at the adjourned meeting, and to whom the subject of a new town map was referred back at the adjourned meeting, with instructions to report at any future town meeting, ask leave to report that there have heretofore been made three maps of the town. The first, in 1725, by — Blake, Jr., which is now in the Public Library. The second, in 1844, after the boundary line between Brookline and Roxbury had been changed. This was engraved on copper-plate and copies printed from that plate, and now in custody of the Town Clerk. The third map was made in 1855, on a scale of 400 feet to the inch, from which a map reduced to 800 feet to the inch was lithographed, copies of which are also in the custody of the Town Clerk. The number of new roads which have been laid out and the number of new buildings which have been erected since that map was printed, make it expedient, in the opinion of your committee, that a new map should be prepared and printed, and they accordingly offer the following votes :

Voted, That it is expedient to print three hundred copies of a map of the town, drawn on a scale of four hundred feet to the inch.

Voted, That a committee of three be appointed to have such map prepared and printed.

Voted, That the sum of one thousand dollars be appropriated to pay the expense of preparing and printing such map, and that the Treasurer be authorized to pay the expense, not exceeding said sum, out of any money in the treasury that may not be needed for appropriations already made, or to borrow the same, or any part thereof that may be necessary, upon his note as Town Treasurer, approved by the Selectmen.

Voted, That when such map has been prepared and printed, the Town Clerk shall be authorized to furnish the map to the tax-payers or inhabitants of the town at one dollar each, and to other persons at two dollars each.

Voted, That a copy of the field-notes of all surveys hereafter made for the town shall be the property of the town, and deposited with the Town Clerk for the use of the town.

Voted, To accept and allow the foregoing report and votes of the committee on a new town map.

The Moderator appointed the following gentlemen to prepare and print said map, to wit: George Griggs, Augustine Shurtleff, and Edward S. Philbrick.

Mr. Thomas Parsons, chairman of the Board of Selectmen, reported that the subject of procuring a rock-breaker, which was referred to the Selectmen, had been inquired into, and as the town had no ledge they did not deem it best to purchase one at present, but that in their opinion, in the fall it would be best to advertise for proposals to furnish the town with broken stone and road materials.

Third Article taken up:

To raise and appropriate such sums of money as may be necessary for underdraining, making and repairing streets and highways.

On motion of Edward Atkinson, it was—

Voted, To take up the Fifth Article in connection with the Third, to wit:

To see if the town will authorize or instruct the Selectmen to engage or permanently employ an engineer or other competent person to take the general charge and supervision of the highways of the town, in conformity with the petition of Edward Atkinson and others.

On motion of Thomas Parsons, it was—

Voted, That the sum of nine thousand dollars be raised and appropriated for the purpose of underdraining, making and repairing the streets and highways of the town, and that the Treasurer be authorized to borrow a sum not exceeding nine thousand dollars therefor.

Mr. Atkinson spoke in relation to the way and manner in which our streets were made and repaired, and considered the present course pursued as defective and imperfect, and advocated a more thorough manner of making new streets and repairing old ones, as also the use of more broken stone for that purpose.

Voted, That in the opinion of the town the system of road repairs should be changed, and that broken stone should be more used.

Voted, That if the appropriations for the repairs of highways shall have been so far exhausted on the first of October, 1870, as to leave an insufficient sum for use in the early spring of 1871, that the sum of five thousand dollars be appropriated for such repairs, and that the Treasurer be authorized to pay the same out of any money in the treasury not otherwise appropriated, or to borrow the same for a term not exceeding six months, with the usual approval of the Selectmen.

Voted, That in order to avert the too careless destruction of ornamental shade-trees of interest and value to direct the Selectmen, or persons employed under them in the care of highways, to give appropriate notice to parties owning estates whenever from the borders of the same trees are to be removed to subserve public convenience.

Fourth Article taken up :

To raise and appropriate money to finish and furnish a police station in the new hose-house.

Voted, That the sum of three thousand dollars be appropriated to finish and furnish a police station in the new hose-house.

Voted, That the Town Treasurer be authorized to borrow a sum not exceeding three thousand dollars for the foregoing purpose, with the approval of the Selectmen.

Sixth Article taken up :

To hear and act upon orders of notice from the County Commissioners on relocating and widening Washington street, and a new townway from Boylston street to the Chestnut Hill reservoir.

Voted, That the Selectmen be authorized to appear at the hearing before the County Commissioners on widening Washington street, and represent the interests of the town in such a manner as they may deem best.

Voted, That the Selectmen be authorized to appear at the hearing before the County Commissioners and oppose the laying out of the way from Boylston street to the Chestnut Hill reservoir, until the same shall be laid out in continuation to some suitable terminus by the County Commissioners of Middlesex County.

Seventh Article taken up :

To see what action the town will take in relation to repairing or rebuilding the Brookline and Cambridge bridge, and to raise and appropriate money therefor.

Voted, That the money received from Norfolk and Middlesex counties be appropriated for the purpose of making and repairing said bridge, and such further sum as will make the amount ten thousand dollars.

Eighth Article taken up :

To see if the town will make a by-law in relation to posting notices and handbills.

The following by-law was then presented by the chairman of the Selectmen, to wit :

A BY-LAW FOR THE PROTECTION OF BUILDINGS, FENCES, AND OTHER STRUCTURES, IN THE TOWN OF BROOKLINE.

SECTION 1. Whoever posts, affixes or in anyway attaches any poster, handbill, notice, advertisement, or placard, to, or upon any post, wall, fence, building, or structure, not his own, within the town of Brookline, without the permission of the owner or proprietor of such post, wall, fence, building, or structure, shall forfeit and pay for each offence a fine of not less than five nor more than twenty dollars, to be paid into the treasury of said town.

SECTION 2. Voted, To accept, allow and adopt the foregoing by-law.

Voted, That the chairman of the Selectmen present the foregoing by-law to the Superior Court of this county for approval.

Voted, That Thomas Parsons, John W. Candler, and Bradford Kingman, be a committee to consider the By-Laws of the Town of Brookline, and to report at a future meeting what changes should be made therein or what additions are desirable thereto.

On motion of William I. Bowditch, it was—

Voted, To further consider the Third Article in the warrant.

On motion of William I. Bowditch—

Voted, That the sum of ten thousand dollars be appropriated and the Selectmen be authorized to apply said sum, or a portion of it, to the purchase of apparatus for preparing material for making roads or for material itself, or for distributing the same, and that the Town Treasurer be authorized to borrow the same, with the customary approval of the Selectmen.

On motion of William Aspinwall, it was—

Voted, That the subject of a change in the present system of making roads be urged upon the Selectmen, and that they embody their views thereon in their next annual report.

ADJOURNED ANNUAL MEETING, APRIL 10, 1871.

Pursuant to adjournment, the citizens of the town of Brookline met at the Town Hall in said town on Monday, the tenth day of April, in the year of our Lord one thousand eight hundred and seventy-one, and were called to order at three of the clock in the afternoon, the Moderator, George F. Homer, in the chair.

The meeting then proceeded to fill the vacancies in the various offices occasioned by the non-acceptance or non-qualification of those chosen at the annual town meeting, as follows, to wit:

The meeting nominated and chose—

Treasurer: George W. Funk.

Field Driver: Daniel C. Murray.

Surveyors of Lumber and Measurers of Wood and Bark: J. Anson Guild, William D. Coolidge, Frank F. Seamans.

The polls were then opened for the reception of votes for one Trustee of the Public Library for three years, and after being kept open fifteen minutes, and all persons qualified having an opportunity to vote, they were declared closed.

The Moderator and Town Clerk then proceeded to sort and count the votes given in, and the whole number so given in was seventy-nine, and were as follows: James M. Codman had thirty-three; Robert Amory had forty-six, and was declared elected a Trustee of the Public Library for the ensuing three years, and accepted the office.

The polls were then opened for the choice of one Assessor for the ensuing year, and were kept open twenty minutes, and all persons qualified having an opportunity to vote if they desired to, they were declared closed.

The Moderator and Town Clerk then proceeded to sort and count the votes given in, and the whole number given in was eighty-one, and were as follows: Augustine Shurtleff had one; William D. Coolidge had nineteen; William Lincoln had sixty-one, and was declared elected one of the Assessors for the ensuing year, accepted the office, and was sworn by the Moderator.

In voting for Trustee and Assessor, the check-list was used, and no person was allowed to deposit his vote until his name had been found and checked on the list.

Voted, That the Selectmen be authorized to fill any vacancies in the list of officers usually chosen by acclamation.

The School Committee, to whom was referred the Fifth Article, "To see if the town will make an appropriation for additional accommodations at the Heath street school-house," reported the following vote, which was passed, viz :

Voted, That the sum of six thousand dollars be raised and appropriated for the purpose of furnishing additional accommodations at the Heath street school-house, and that the matter of furnishing such accommodations be referred to the School Committee, with full powers.

The Sixth Article, which was referred to the School Committee, viz. : "To see if the town will make an appropriation for grading and fencing the Ward school-house lot," was taken up, and the committee submitted the following vote, which was passed, viz. :

Voted, That an appropriation of two thousand five hundred dollars be made, and that the execution of the work be referred, with full powers, to the Selectmen.

The Selectmen, to whom was referred the Seventh Article in the warrant, submitted the following report, viz. :

REPORT.

The Selectmen, to whom was referred the Seventh Article in the warrant, to wit: "To see if the town will make a reservoir at the junction of Harvard and Washington streets," respectfully submit the following report:

The cost of a sufficient brick reservoir is estimated to cost fifteen hundred dollars. An eight (8) inch iron pipe laid from the main pipe of the Boston Water Works, on Boylston street, with a hydrant, is estimated at eighteen hundred and seventy-five dollars. There is no reason to believe that the Boston Water Board will allow such a pipe and hydrant to be laid.

In view of the facts, the Selectmen recommend to the town to appropriate the sum of two thousand dollars for the purpose of constructing a reservoir or laying a pipe and hydrant at the junction of Harvard and Washington streets, as they shall find most expedient for the interests of the town.

CHARLES D. HEAD, *Chairman.*

Voted, To accept and allow the foregoing report.

Voted, That the sum of two thousand dollars be raised and appropriated to construct a reservoir or hydrant at the junction of Harvard and Washington streets.

The committee to whom was referred the Tenth Article in the warrant, to wit: "To see if the town will build a new engine-house on the land now owned and occupied by the town for that purpose on Washington street," submitted the following report:

REPORT.

The special committee appointed at the town meeting held March 27th, 1871, to report on the subject of a new engine-house, beg leave to submit the following report:

Your committee have found that the present engine-house on Washington street is unfit for use, and recommend the erection of a new building, large enough for a fire-engine and a hook-and-ladder carriage. Your committee find that the lot owned by the town, on Washington street, on which the engine-house and hook-and-ladder carriage-house are now situated has a frontage of fifty (50) feet and a sufficient depth for a building suitable for the purpose above named. They have examined plans and had sketches prepared, to get some idea of the cost of a building, and find that a substantial, brick building, with granite trimmings, with suitable accommodations for a steam fire-engine and a hook-and-ladder carriage can be built for about fourteen thousand dollars (\$14,000), and your committee recommend that the Selectmen have authority to build a suitable building, and that an appropriation of fourteen thousand dollars (\$14,000) be made by the town for that purpose.

JOHN W. CANDLER.

WM. K. MELCHER,

ALFRED KENRICK, JR.

BROOKLINE, April 10, 1871.

Voted, To accept and allow the foregoing report.

Voted, That the sum of fourteen thousand dollars be raised and appropriated for the purpose of building a new engine-house, as recommended, and that the Selectmen have authority to carry out the recommendation of said report.

Eleventh Article taken up:

To see if the town will provide places for watering animals by the sides of the streets.

The Selectmen, to whom the Eleventh Article was referred, submitted the following report, viz.:

REPORT.

The only statute upon the subject is the Act of 1870, chapter 119. By this Act the Selectmen are authorized on the application of any person to permit him to establish upon or near the highway a suitable watering-place, and to pay him not exceeding five dollars a year so long as said watering-place is maintained. The Selectmen do not feel clear that the town has the right to appropriate money for the establishment of watering-places in any other manner than that provided for in the statute. They believe, however, that such watering-places would be of great public utility, since the town has built over almost all the brooks that flow across the highways, and which, so long as they remained open, were largely used by the horses and cattle driven through the town.

CHARLES D. HEAD,
Chairman.

Voted, To accept the foregoing report.

The Twelfth Article taken up :

To see what action the town will take in relation to changing the grade of Brighton avenue from the Brighton line to St. Mary's street.

The Selectmen, to whom was referred the subject of the Twelfth Article, submitted the following report, viz. :

REPORT.

That it is inexpedient to take any action thereon at present.

CHARLES D. HEAD,
Chairman.

Voted, To accept the foregoing report.

The subject of the by-laws, as reported by the committee, was taken up, and the several provisions of said by-laws were considered, examined, and discussed.

Voted, That the report on by-laws be recommitted to the same committee for further consideration, and that they give a public hearing thereon, and report at a future meeting.

On motion of B. F. Baker, it was—
